**Subject:** HB4265 and HB4266

Dear Committee Members,

After all the hard work of individuals to clean up our environment and help people to be more responsible regarding the unnecessary addition of yard waste into our precious landfill space I cannot believe that the ban is being proposed to be lifted.

I say **NO** to HB4265 and HB4266. Keep yard waste in the composting stream of residents, business and reuse! Landfills are big enough. Let us **ALL** be responsible for our footprint on this earth. Let us **ALL** be stewards of the earth.

Cordially,  
Connie L. Young  
Master Gardener Volunteer  
Grand Rapids, MI
