

- Michigan's auto no-fault system is one of the best in the world. It provides injury and rehabilitation to auto accident victims for as long as they persist.
- To save a small portion is not worth throwing away the best benefits in the world. When final bills are taken into account it costs millions of dollars.
- People who pay the minimum coverage or sue the other driver is driving up the costs for policy holders, but saving insurance companies from paying a claim.
- Taxpayers cannot afford the insurance industries reforms.
- Vote NO on house bill 4936
