Dear Representative,

I am a survivor of an automobile accident. I was on my lunch break and got hit by a semi. I was pronounced dead twice, once at the scene and once while in the ER. My recovery process has already cost millions and it's only been 7 years. If you were to get rid of Auto No-Fault, I would die. There wouldn't be any money for my health care or housing, causing me to be homeless. I lost my wife and kids in the process and can't afford to lose more. PLEASE SAY NO to HB 4936.

Sincerely,

Andy Ondrus
