House Bill 5426
Sponsor: Rep. Marcia Hovey-Wright

House Bill 5427
Sponsor: Rep. Andy Schor

Committee: Regulatory Reform
Complete to 5-5-14

A SUMMARY OF HOUSE BILL 5426 AS INTRODUCED 3-25-14

House Bills 5426 and 5427 would amend the Michigan Liquor Control Code to allow microbrewers to provide samples of their beer at farmers markets in Michigan. The bills are tie-barred together, meaning neither can take effect if one is not enacted.

House Bill 5426 would allow the Michigan Liquor Control Commission to issue a permit to a microbrewer to conduct tastings and to sell its beer at farmers markets. Small wine makers are already allowed to apply for and receive a farmers market permit, and the existing guidelines relating to small wine makers would also apply to microbrewers. A \$25 fee would have accompany each application, and applicants also would have to submit documentation that the local police agency where the market is located and the market manager have approved the proposed activity.

Microbrewers must abide by the following rules once they receive a permit:

- Tasting and sales shall take place within a "well defined and clearly marked" area at the market, in a manner prescribed by the commission.
- Tastings and sales shall only be conducted by employees of the farmers market permit holder, and employees must have completed a server training program.
- Beer sold or provided for tasting shall be furnished from the permit holder's stock and immediately removed from market premises after the market has concluded.
- A customer would be limited to not more than three 3-oz. samples of beer in a 24-hour time period.

House Bill 5427 would amend the Michigan Liquor Control Code by adding farmers markets to the list of places a licensed microbrewer is allowed to sell beer.

FISCAL IMPACT:

The bill would have no significant fiscal impact on the state or local units of government.
