Senate Bill 373 (Substitute S-3) Sponsor: Senator Jim Stamas Senate Committee: Appropriations House Committee: Appropriations

Date Completed: 7-22-20

#### **CONTENT**

The bill would amend the State School Aid Act to implement several provisions of the fiscal year (FY) 2019-20 budget agreement pertaining to K-12 schools, community colleges, and higher education. In broad terms, the bill would reduce State funding to K-12 schools by \$175 per pupil, reduce State funding to community colleges and higher education by roughly 11.2% applied to each institution's operations and performance funding, include fund shifts freeing up School Aid Fund (SAF) revenues, reduce and eliminate certain categoricals, include technical consensus cost adjustments in various line items, and appropriate Federal Coronavirus Relief Fund (CRF) money for K-12, community colleges, and higher education. The tables below identify specific dollar changes found in the bill.

In addition, the bill would include language to ensure charter schools received the same minimum foundation allowance that local districts at the minimum receive and would allow Great Start Readiness Program subrecipients to identify up to 10% of indirect costs. The bill also would include a requirement that the Department of Education continue the model value-added growth and projection analytics system, specifies conditions for funding the model in the future, would require that the Department and platform vendor provide statewide training for educators, and would require the Department and Center for Educational Performance and Information (CEPI) to provide a report on district's use of the model. Finally, the bill would extend the date by which recent high school graduates may apply for the Tuition Incentive Program.

Another way to view the pieces of the budget agreement illustrated above is in the following table, which illustrates the initial K-12 appropriations in total, the proposed changes in appropriations, the proposed changes in revenues, and the resulting appropriations. Please see <u>Table 5</u> below. For community colleges and higher education (not reflected in the table below), the State funding reduction is roughly 11.2%, applied to operations and performance funding. In addition, the CRF appropriations for community colleges and higher education are roughly 11.2%, applied to operations and performance funding. The sum total of reductions in State spending for community colleges and higher education is \$200.0 million.

### **FISCAL IMPACT**

The bill would increase Gross appropriations to K-12 by roughly \$136.0 million and would not result in any changes in gross appropriations for community colleges or higher education. Of the gross appropriations, State spending in K-12 would decrease by \$376.0 million, while State spending for community colleges and higher education would decline by \$200.0 million. Federal spending for K-12 would increase \$512.0 million and Federal spending for community colleges and higher education would increase by \$200.0 million.
