FISCAL IMPACT

The bill provides line item appropriations of \$174.4 million Gross and \$117.9 million GF/GP for FY 2018-19. The adjustments for DHHS reflect final estimated expenditures for the Department. These adjustments include caseload costs for the Medicaid program, a caseload and fund source shortfall in the Child Care Fund (CCF) line, minor public assistance caseload adjustments, reimbursement to the Federal government for audit findings, and risk corridor payments to four Prepaid Inpatient Health Plans (PIHPs). The Medicaid caseload costs reflect final caseload adjustments as well as reduced pharmacy rebates, increased enrollment in the Children's Special Health Care Services managed care program, and increased Medicaid special financing revenue for hospitals. The CCF adjustment reflects both greater reimbursements to counties as well as the inability to use Federal Temporary Assistance for Needy Families (TANF) revenues for reimbursement. The Federal audit obligations reflect the Federal match on certain Medicaid payments identified in audits as being State responsibilities. The PIHP risk share payments reflect the State shares of costs that exceed the PIHP risk corridor defined in statute. These include \$1.1 million for Lakeshore Regional Entity, \$9.1 million for Southeast Michigan PIHP, \$2.5 million for Macomb PIHP, and \$8.0 million for Oakland PIHP.

Table 2 summarizes the details of the appropriations in the supplemental.
