15 ~~examination of animals removed from the herd for detection of~~  
16 ~~tuberculosis. Examination must be performed by a state or federal~~  
17 ~~veterinarian or accredited veterinarian. The number to be examined~~

~~The director may order testing for any reportable disease in any~~  
~~geographical area or in any herd to accomplish surveillance~~  
~~necessary for the state of Michigan to participate in the national~~  
~~tuberculosis eradication program, to complete epidemiologic~~  
~~investigations for any reportable disease, or in any instance where~~  
~~a reportable disease is suspected. The director may establish a~~  
~~surveillance testing program for cattle and goats to replace the~~  
~~testing protocol and meet the intrastate movement requirements~~  
~~under subsections (22) and (23). A person shall not sell or offer~~

~~accredited veterinarians.~~

~~—— (21) Terminal operations and privately owned cervid premises~~  
~~located in any area outside a high-risk area or a potential high-~~  
~~risk area in this state may be exempted from subsection (18) and~~
