This bill would implement a statewide water quality monitoring program. State appropriations would be supported by the Clean Water fund (Clean Michigan Initiative bond) revenue. As much as \$45,000,000 would be available during the next 15 years to cover an annual \$3.0 million appropriation. These funds would support the cost of personal service contracts administered by the Department of Environmental Quality. Sufficient funds exist in the Clean Water fund to support the program mandated by this bill.
