---

## SUMMARY

This bill would establish a December 31, 2005 sunset on the current scrap tire disposal surcharge and increase the amount of the surcharge from \$.50 to \$1.50. These changes would preserve the funding source for the State scrap tire regulatory and grants program and provide an additional \$3.4 million in revenue annually to support scrap tire programs in the Department of Environmental Quality. There would be no fiscal impact on local governmental units.
