**MILITARY HUNTING AND FISHING
LICENSES**

**House Bill 4139 as introduced
First Analysis (3-13-03)**

**Sponsor: Rep. Joseph Rivet
Committee: Conservation and Outdoor
Recreation**

THE APPARENT PROBLEM:

The Natural Resources and Environmental Protection Act (NREPA) permits a member of the armed forces who was a resident of the state at the time of enlistment or has maintained a residence in the state, and who is stationed outside of the state, to obtain a hunting or fishing license (if not distributed on the basis of a lottery) for \$1 and the presentation of leave papers. According to the Department of Natural Resources, these licenses are valid for a period not exceeding two weeks during the appropriate season and during a time as designated by the individual, and may be obtained only from DNR Operations Service Centers.

According to committee testimony, there have been incidents where members of the military have been denied the reduced license fee because they had presented documentation other than actual leave papers. As such, legislation has been introduced that would allow members of the military to provide other forms of documentation when obtaining a hunting or fishing license.

THE CONTENT OF THE BILL:

The bill would amend the NREPA to permit an individual in the armed forces to present duty papers, military orders, or other evidence acceptable to the Department of Natural Resources that verifies that he or she is stationed outside of the state, in order to obtain a special hunting or fishing license at the reduced cost of \$1.

MCL 324.43536a

FISCAL IMPLICATIONS:

According to the House Fiscal Agency, the bill would have no fiscal impact on the state or on local governmental units. (3-11-03)

ARGUMENTS:

For:

Quite often, the military leave documentation provided to members of the military varies according to an individual's rank. As such, there are many members of the military who are not provided with actual leave papers. In this instance, those individuals would not be able to obtain the special military hunting and fishing license. Absent the proper documentation, the individual would have to pay, for instance, a license fee of \$14 for a resident deer firearm license rather than the special license fee of \$1. The additional fees that would have to be paid could prove to be cost prohibitive for the individual.

The bill would provide the DNR with the necessary flexibility in determining what constitutes proper documentation. This may be beneficial in those instances when an individual does not have the proper documentation on their person and retrieving the documentation would be onerous.

POSITIONS:

The Department of Natural Resources supports the bill. (3-12-03)

Trout Unlimited supports the bill. (3-12-03)
