Senate Bill 219 (as introduced 2-26-13)
Sponsor: Senator Darwin L. Booher
Committee: Veterans, Military Affairs and Homeland Security

(as enacted)

Date Completed: 3-11-13

CONTENT

The bill would amend Public Act 222 of 1972, which provides for an official State personal identification card, to do the following:

- **Require the Secretary of State (SOS) to include a person's status as a military veteran on his or her State ID card, if the person requested the designation and he or she were a veteran and had not been dishonorably discharged.**
- **Require the SOS to obtain proof of discharge or separation of service to verify a person's status as a veteran.**
- **Require the SOS to consult with the Department of Military and Veterans Affairs (DMVA) in determining the proof necessary to identify a person's veteran status.**
- **Allow the SOS to give information provided by an applicant to the DMVA and county veteran agencies in order to refer the applicant for eligibility for veterans' benefits.**

The bill would take effect on May 1, 2014.

The Act lists information that a State personal ID card must contain, including such things as name, date of birth, and other identifying characteristics. Under the bill, a State ID card also would have to include a designation that the cardholder was a veteran, if requested by an individual who was a veteran of the Armed Forces of the United States, Michigan, or another state, other than a person who was dishonorably discharged. The veteran designation would have to be in a style and format that the SOS considered appropriate.

The SOS would have to require proof of discharge or separation of service, and the nature of that discharge, for the purpose of verifying a person's status as a veteran. The SOS would have to consult with the DMVA in determining the proof that would be required to identify a person's veteran status.

The SOS could give information provided by an applicant to the DMVA and county agencies that provide veteran services for the purpose of referral for veterans' benefits eligibility.

Legislative Analyst: Patrick Affholter

FISCAL IMPACT

The bill would create a one-time cost to the Department of State of an estimated \$160,000 associated with reprogramming and modification of the Department's driver license/State ID production process. Additionally, assuming a 20% participation rate among eligible veterans, the Department estimates a cost of \$531,000 for staff, manufacturing, and mailing costs. This cost would be spread over a number of years and would ultimately depend on the number of veterans choosing to have the designation placed on their ID card.
