19 addition to, and does not supersede or modify, other state or
20 federal law regulating the labeling of prescription drugs.

21 (10) In addition to meeting the requirements of this part, a
22 dispensing prescriber who dispenses controlled substances shall
23 comply with section 7303a.

24 (11) The board may periodically inspect locations from which
25 prescription drugs are dispensed.

26 (12) The act, task, or function of dispensing prescription
27 drugs shall be delegated only as provided in this part and sections

1 16215, 17048, 17076, 17212, and 17548.

2 (13) A supervising physician may delegate in writing to a
3 pharmacist practicing in a hospital pharmacy within a hospital
4 licensed under article 17 the receipt of complimentary starter dose
5 drugs other than controlled substances as defined by article 7 or
6 federal law. When the delegated receipt of complimentary starter
7 dose drugs occurs, both the pharmacist's name and the supervising
8 physician's name shall be used, recorded, or otherwise indicated in
9 connection with each receipt. A pharmacist described in this
10 subsection may dispense a prescription for complimentary starter
11 dose drugs written or transmitted by facsimile, electronic
12 transmission, or other means of communication by a prescriber.

13 (14) As used in this section, "complimentary starter dose"
14 means a prescription drug packaged, dispensed, and distributed in
15 accordance with state and federal law that is provided to a
16 dispensing prescriber free of charge by a manufacturer or
17 distributor and dispensed free of charge by the dispensing
18 prescriber to his or her patients.

19 Sec. 17751. (1) A pharmacist shall not dispense a drug
20 requiring a prescription under the federal act or a law of this
21 state except under authority of an original prescription or an
22 equivalent record of an original prescription approved by the
23 board.

24 (2) Subject to subsection (5), a pharmacist may dispense a
25 prescription written and signed; written or created in an
26 electronic format, signed, and transmitted by facsimile; or
27 transmitted electronically or by other means of communication by a

1 physician prescriber or dentist prescriber in a state other than
2 Michigan, but not including a prescription for a controlled
3 substance as defined in section 7104 except under circumstances
4 described in section 17763(e), only if the pharmacist in the
5 exercise of his or her professional judgment determines all of the
6 following:

14 only if the prescription falls within the scope of practice of the
15 prescriber.

16 (4) A pharmacist shall not knowingly dispense a prescription
17 after the death of the prescriber or patient.

18 (5) A pharmacist shall not dispense a drug or device under a
19 prescription transmitted by facsimile or created in electronic
20 format and printed out for use by the patient unless the document
21 is manually signed by the prescriber. This subsection does not
22 apply to a prescription that is transmitted by a computer to a
23 facsimile machine if that prescription complies with section 17754.

24 (6) After consultation with and agreement from the prescriber,
25 a pharmacist may add or change a patient's address, dosage form,
26 drug strength, drug quantity, directions for use, or issue date
27 with regard to a prescription. A pharmacist shall note the details

1 of the consultation and agreement required under this subsection on
2 the prescription and shall maintain that documentation with the
3 prescription as required in section 17752. A pharmacist shall not
4 change the patient's name, controlled substance prescribed unless
5 authorized to dispense a lower cost generically equivalent drug
6 product under section 17755, or the prescriber's signature with
7 regard to a prescription.

8 (7) A prescription that is contained within a patient's chart
9 in a health facility or agency licensed under article 17 or other
10 medical institution and that is transmitted to a pharmacy under
11 section 17744 is the original prescription. If all other
12 requirements of this part are met, a pharmacist shall dispense a
13 drug or device under a prescription described in this subsection. A
14 pharmacist may dispense a drug or device under a prescription
15 described in this subsection even if the prescription does not
16 contain the quantity ordered. If a prescription described in this
17 subsection does not contain the quantity ordered, the pharmacist
18 shall consult with the prescriber to determine an agreed-upon
19 quantity. The pharmacist shall record the quantity dispensed on the
20 prescription and shall maintain that documentation with the
21 prescription as required in section 17752.

22 Sec. 17754. (1) Except as otherwise provided under article 7,
23 article 8, and the federal act, a prescription may be transmitted
24 electronically if the prescription is transmitted in compliance
25 with the health insurance portability and accountability act of
26 1996, Public Law 104-191, or regulations promulgated under that
27 act, 45 CFR parts 160 and 164, by a prescriber or his or her agent

1 and the data are not altered or modified in the transmission
2 process. The electronically transmitted prescription shall include
3 all of the following information:

4 (a) The name, address, and telephone number of the prescriber.

5 (b) Except as otherwise authorized under section 17744a **OR**
6 **17744B**, the full name of the patient for whom the prescription is
7 issued.

8 (c) An electronic signature or other identifier that
9 specifically identifies and authenticates the prescriber or his or
10 her agent.

11 (d) The time and date of the transmission.

12 (e) The identity of the pharmacy intended to receive the
13 transmission.

14 (f) Any other information required by the federal act or state
15 law.

16 (2) The electronic equipment or system utilized in the
17 transmission and communication of prescriptions shall provide
18 adequate confidentiality safeguards and be maintained to protect
19 patient confidentiality as required under any applicable federal
20 and state law and to ensure against unauthorized access. The
21 electronic transmission of a prescription shall be communicated in
22 a retrievable, recognizable form acceptable to the intended
23 recipient. The electronic form utilized in the transmission of a
24 prescription shall not include "dispense as written" or "d.a.w." as
25 the default setting.

26 (3) Before dispensing a prescription that is electronically
27 transmitted, the pharmacist shall exercise professional judgment

1 regarding the accuracy, validity, and authenticity of the
2 transmitted prescription.

3 (4) An electronically transmitted prescription that meets the
4 requirements of this section is the original prescription.

5 Sec. 17757. (1) Upon a request made in person or by telephone,
6 a pharmacist engaged in the business of selling drugs at retail
7 shall provide the current selling price of a drug dispensed by that
8 pharmacy or comparative current selling prices of generic and brand
9 name drugs dispensed by that pharmacy. The information shall be
10 provided to the person making the request before a drug is
11 dispensed to the person. A person who makes a request for price
12 information under this subsection is not obligated to purchase the
13 drug for which the price or comparative prices are requested.

14 (2) A pharmacist engaged in the business of selling drugs at
15 retail shall conspicuously display the notice described in
16 subsection (3) at each counter over which prescription drugs are
17 dispensed.

18 (3) The notice required under subsection (2) shall be in
19 substantially the following form:

20 NOTICE TO CONSUMERS

21 ABOUT PRESCRIPTION DRUGS

22 Under Michigan law, you have the right to find out the price
23 of a prescription drug before the pharmacist fills the
24 prescription. You are under no obligation to have the prescription
25 filled here and may use this price information to shop around at
26 other pharmacies. You may request price information in person or by
27 telephone.

1 Every pharmacy has the current selling prices of both generic
2 and brand name drugs dispensed by the pharmacy.

3 Ask your pharmacist if a lower-cost generic drug is available
4 to fill your prescription. A generic drug contains the same
5 medicine as a brand name drug and is a suitable substitute in most
6 instances.

7 A generic drug may not be dispensed by your pharmacist if your
8 doctor has written "dispense as written" or the initials "d.a.w."
9 on the prescription.

10 If you have questions about the drugs that have been
11 prescribed for you, ask your doctor or pharmacist for more
12 information.

13 To avoid dangerous drug interactions, let your doctor and
14 pharmacist know about any other medications you are taking. This is
15 especially important if you have more than 1 doctor or have
16 prescriptions filled at more than 1 pharmacy.

17 (4) The notice required under subsection (2) shall also
18 contain the address and phone number of the board and the
19 department. The text of the notice shall be in at least 32-point
20 bold type and shall be printed on paper at least 11 inches by 17
21 inches in size. The notice may be printed on multiple pages.

22 (5) ~~A-**THE DEPARTMENT SHALL PROVIDE A**~~ copy of the notice
23 required under subsection (2) ~~shall be provided to each licensee.~~
24 ~~by the department.~~ The department shall provide additional copies
25 if needed. A person may duplicate or reproduce the notice if the
26 duplication or reproduction is a true copy of the notice as
27 produced by the department, without any additions or deletions.

Senate Bill No. 860 as amended June 4, 2014

3 purchaser a receipt evidencing the transactions, which contains all

13 (h) The name of the prescriber or, if prescribed under the
14 prescriber's delegatory authority, the name of the delegatee.

15 (i) Except as otherwise authorized under section 17744a **OR**
16 **17744B**, the name of the patient for whom the drug was prescribed.

17 (j) The price for which the drug was sold to the purchaser.

18 (7) The items required under subsection (6)(a), (b), and (c)
19 may be omitted by a pharmacist only if the omission is expressly
20 required by the prescriber. The pharmacist shall retain a copy of
21 each receipt for 90 days. The inclusion of the items required under
22 subsection (6) on the prescription container label is a valid
23 receipt to the purchaser. Including the items required under
24 subsection (6) on the written prescription form and retaining the
25 form constitutes retention of a copy of the receipt.

26 (8) The board may promulgate rules to implement this section.
