In addition, the department shall compile and post on its website all of the following information concerning best practices in career and technical education:

(a) A detailed description of the ways that career and technical education may be used to help fulfill the requirements of sections 1278a and 1278b, including, but not limited to, the role of career and technical education in a personal curriculum under section 1278b.

(b) Information highlighting and describing successful career and technical education programs being operated by school districts and intermediate school districts.

(e) The various ways in which school districts and public school academies have embedded the course content from credits required under the Michigan merit standard under sections 1278a and 1278b into career and technical education and other alternative instructional delivery methods in order to deliver the curricular requirements of sections 1278a and 1278b.

(2) As part of the process of developing an educational development plan under section 1278b, the board of a school district or board of directors of a public school academy shall ensure that pupils are provided with information about how they can fulfill the requirements of sections 1278a and 1278b with career and technical education or another program approved by the department.

(3) School districts, public school academies, and intermediate school districts are strongly encouraged to establish programs in which, upon completion of the program and graduation from high school, the completion of the program is credited toward achievement of a professional certificate, training, apprenticeship, or college credit in a specific career and technical field.
