16 (a) Immediately notify the clerk of the municipality in which  
17 the disposal area is located or proposed to be located, the local  
18 soil erosion and sedimentation control agency, each division within  
19 the department and the department of natural resources that has  
20 responsibilities in land, air, or water management, and the  
21 designated regional solid waste management planning agency.

22 (b) Publish a notice in a newspaper having major circulation  
23 in the vicinity of the proposed disposal area. The required  
24 published notice shall contain a map indicating the location of the  
25 proposed disposal area and shall contain a description of the  
26 proposed disposal area and the location where the complete  
27 application package may be reviewed and where copies may be

1 obtained.

2 (c) Indicate in the public, departmental, and municipality  
3 notice that the department shall hold a public hearing in the area  
4 of the proposed disposal area if a written request is submitted by  
5 the applicant or a municipality within 30 days after the date of  
6 publication of the notice, or by a petition submitted to the  
7 department containing a number of signatures equal to not less than  
8 10% of the number of registered voters of the municipality where  
9 the proposed disposal area is to be located who voted in the last  
10 gubernatorial election. The petition shall be validated by the  
11 clerk of the municipality. The public hearing shall be held after  
12 the department makes a preliminary review of the application and  
13 all pertinent data and before a construction permit is issued or  
14 denied.

15 (d) Conduct a consistency review of the plans of the proposed  
16 disposal area to determine if it complies with this part and the  
17 rules promulgated under this part. The review shall be made by  
18 persons qualified in hydrogeology and sanitary landfill  
19 engineering. A written acknowledgment that the application package  
20 is in compliance with the requirements of this part and rules  
21 promulgated under this part by the persons qualified in  
22 hydrogeology and sanitary landfill engineering shall be received  
23 before a construction permit is issued. If the consistency review  
24 of the site and the plans and the application meet the requirements  
25 of this part and the rules promulgated under this part, the  
26 department shall issue a construction permit that may contain a  
27 stipulation specifically applicable to the site and operation.

1 Except as otherwise provided in section 11542, an expansion of the  
2 area of a disposal area, an enlargement in capacity of a disposal  
3 area, or an alteration of a disposal area to a different type of  
4 disposal area than had been specified in the previous construction  
5 permit application constitutes a new proposal for which a new  
6 construction permit is required. The upgrading of a disposal area  
7 type required by the department to comply with this part or the  
8 rules promulgated under this part or to comply with a consent order  
9 does not require a new construction permit.

10 (e) Notify the Michigan aeronautics commission if the disposal  
11 area is a sanitary landfill that is a new site or a lateral  
12 ~~extension~~**EXPANSION** or vertical expansion of an existing unit  
13 proposed to be located within 5 miles of a runway or a proposed  
14 runway extension contained in a plan approved by the Michigan  
15 aeronautics commission of an airport licensed and regulated by the  
16 Michigan aeronautics commission. The department shall make a copy  
17 of the application available to the Michigan aeronautics  
18 commission. If, after a period of time for review and comment not  
19 to exceed 60 days, the Michigan aeronautics commission informs the  
20 department that it finds that operation of the proposed disposal  
21 area would present a potential hazard to air navigation and  
22 presents the basis for its findings, the department may either  
23 recommend appropriate changes in the location, construction, or  
24 operation of the proposed disposal area or deny the application for  
25 a construction permit. The department shall give an applicant an  
26 opportunity to rebut a finding of the Michigan aeronautics  
27 commission that the operation of a proposed disposal area would

1 present a potential hazard to air navigation. The Michigan  
2 aeronautics commission shall notify the department and the owner or  
3 operator of a landfill if the Michigan aeronautics commission is  
4 considering approving a plan that would provide for a runway or the  
5 extension of a runway within 5 miles of a landfill.

16 authorized in the approved county solid waste management plan.

17 (2) SUBSECTION (1) DOES NOT APPLY TO COAL ASH THAT IS ACCEPTED  
18 FOR DISPOSAL AT A CAPTIVE FACILITY THAT, AFTER THE EFFECTIVE DATE  
19 OF THE AMENDATORY ACT THAT ADDED THIS SUBSECTION, ACCEPTS ONLY

4 decision is made.

5 (2) An operating license shall expire 5 years after the date  
6 of issuance. An operating license may be renewed before expiration  
7 upon payment of a renewal application fee specified in section  
8 11512(8) if the licensee is in compliance with this part and the  
9 rules promulgated under this part.

10 (3) The issuance of the operating license under this part  
11 empowers the department or a health officer or an authorized  
12 representative of a health officer to enter at any reasonable time,

16 material.

17 (4) Except as otherwise provided in this subsection, the  
18 department shall not issue an operating license for a new disposal  
19 area within a planning area unless a solid waste management plan  
20 for that planning area has been approved pursuant to sections 11536  
21 and 11537 and unless the disposal area complies with and is  
22 consistent with the approved solid waste management plan. ~~The~~  
23 ~~department may issue an operating license for a disposal area~~  
24 ~~designed to receive ashes produced in connection with the~~  
25 ~~combustion of fossil fuels for electrical power generation~~ **THIS**  
26 **SUBSECTION DOES NOT PROHIBIT THE ISSUANCE OF A LICENSE FOR A**  
27 **CAPTIVE FACILITY THAT IS A COAL ASH IMPOUNDMENT OR A COAL ASH**

1 **LANDFILL** in the absence of an approved county solid waste  
2 management plan, upon receipt of a letter of approval from  
3 whichever county or counties, group of municipalities, or regional  
4 planning agency has prepared or is preparing the county solid waste  
5 management plan for that planning area under section 11533 and from  
6 the municipality in which the disposal area is to be located.

7 (5) Issuance of an operating license by the department  
8 authorizes the licensee to accept waste for disposal in certified  
9 portions of the disposal area for which a bond was established  
10 under section 11523 and, for type II landfills, for which financial  
11 assurance was demonstrated under section 11523a. If the  
12 construction of a portion of a landfill licensed under this section  
13 is not complete at the time of license application, the owner or  
14 operator of the landfill shall submit a certification under the  
15 seal of a licensed professional engineer verifying that the  
16 construction of that portion of the landfill has proceeded  
17 according to the approved plans at least 60 days prior to the  
18 anticipated date of waste disposal in that portion of the landfill.  
19 If the department does not deny the certification within 60 days of  
20 receipt, the owner or operator may accept waste for disposal in the  
21 certified portion. In the case of a denial, the department shall  
22 issue a written statement stating the reasons why the construction  
23 or certification is not consistent with this part or rules  
24 promulgated under this part or the approved plans.

25 Sec. 11518. (1) At the time a disposal area that is a sanitary  
26 landfill is licensed, an instrument that imposes a restrictive  
27 covenant upon the land involved shall be executed by all of the

1 owners of the tract of land upon which the landfill is to be  
2 located and the department. If the land involved is state owned,  
3 the state administrative board shall execute the covenant on behalf  
4 of the state. The instrument imposing the restrictive covenant  
5 shall be filed for record by the department or a health officer in  
6 the office of the register of deeds of the county, or counties, in  
7 which the facility is located. The covenant shall state that the  
8 land described in the covenant has been or will be used as a  
9 landfill and that neither the property owners, their servants,  
10 agents, or employees, nor any of their heirs, successors, lessees,  
11 or assigns shall engage in filling, grading, excavating, drilling,  
12 or mining on the property during the first 50 years following  
13 completion of the landfill without authorization of the department.  
14 In giving authorization, the department shall consider the original  
15 design, type of operation, material deposited, and the stage of  
16 decomposition of the fill. Special exemption from this section may  
17 be granted by the department if the lands involved are federal  
18 lands or if contracts existing between the landowner and the  
19 licensee on January 11, 1979 are not renegotiable.

20 (2) This part does not prohibit the department from conveying,  
21 leasing, or permitting the use of state land for a solid waste  
22 disposal area or a resource recovery facility as provided by  
23 applicable state law.

24 **(3) WHEN A DISPOSAL AREA THAT IS A COAL ASH IMPOUNDMENT IS**  
25 **LICENSED UNDER THIS PART, AN INSTRUMENT THAT IMPOSES A RESTRICTIVE**  
26 **COVENANT UPON THE LAND INVOLVED SHALL BE EXECUTED BY ALL OF THE**  
27 **OWNERS OF THE TRACT OF LAND UPON WHICH THE IMPOUNDMENT IS LOCATED**

1 OR IS TO BE LOCATED AND THE DEPARTMENT. IF THE LAND INVOLVED IS  
2 OWNED BY THIS STATE, THE STATE ADMINISTRATIVE BOARD SHALL EXECUTE  
3 THE COVENANT ON BEHALF OF THIS STATE. THE INSTRUMENT IMPOSING THE  
4 RESTRICTIVE COVENANT SHALL BE FILED FOR RECORD BY THE DEPARTMENT OR  
5 A HEALTH OFFICER IN THE OFFICE OF THE REGISTER OF DEEDS OF THE  
6 COUNTY, OR COUNTIES, IN WHICH THE DISPOSAL AREA IS LOCATED. THE  
7 COVENANT SHALL STATE THAT THE LAND DESCRIBED IN THE COVENANT HAS  
8 BEEN OR WILL BE USED AS A COAL ASH IMPOUNDMENT AND THAT NEITHER THE  
9 PROPERTY OWNERS, THEIR SERVANTS, AGENTS, OR EMPLOYEES, NOR ANY OF  
10 THEIR HEIRS, SUCCESSORS, LESSEES, OR ASSIGNS SHALL ENGAGE IN  
11 FILLING, GRADING, EXCAVATING, DRILLING, OR MINING ON THE PROPERTY  
12 DURING THE FIRST 50 YEARS FOLLOWING COMPLETION OF THE IMPOUNDMENT  
13 WITHOUT AUTHORIZATION OF THE DEPARTMENT. IN GIVING AUTHORIZATION,  
14 THE DEPARTMENT SHALL CONSIDER THE ORIGINAL DESIGN, TYPE OF  
15 OPERATION, MATERIAL DEPOSITED, AND ANY REMOVAL OF THE MATERIALS AS  
16 PART OF THE CLOSURE OF THE IMPOUNDMENT.

17 (4) AN INDUSTRIAL WASTE LANDFILL MAY ACCEPT INDUSTRIAL WASTE  
18 OF DIFFERENT TYPES AND FROM DIFFERENT GENERATORS, BUT SHALL NOT  
19 ACCEPT HAZARDOUS WASTE GENERATED BY CONDITIONALLY EXEMPT SMALL  
20 QUANTITY GENERATORS.

21 SEC. 11519A. (1) THE OWNER OR OPERATOR OF AN EXISTING COAL ASH  
22 IMPOUNDMENT OR A COAL ASH IMPOUNDMENT LICENSED UNDER THIS PART  
23 SHALL DO ALL OF THE FOLLOWING:

24 (A) COMPLY WITH R 299.4311 OF THE PART 115 RULES.

25 (B) ENSURE THAT THE IMPOUNDMENT IS NOT IN VIOLATION OF PART 31  
26 OR PART 55 AND DOES NOT CREATE A NUISANCE.

6           Sec. 11523. (1) The department shall not issue a license to  
7 operate a disposal area unless the applicant has filed, as a part  
8 of the application for a license, evidence of the following  
9 financial assurance:

10           (a) Financial assurance established for a type III landfill or  
11 a preexisting unit at a type II landfill and until April 9, 1997,  
12 existing and new type II landfills shall be in the form of a bond  
13 in an amount equal to \$20,000.00 per acre of licensed landfill  
14 within the solid waste boundary. However, the amount of the bond  
15 shall not be less than \$20,000.00 or more than \$1,000,000.00. Each  
16 bond shall provide assurance for the maintenance of the finished  
17 landfill site for a period of 30 years after the landfill or any  
18 approved portion is completed. In addition to this bond, a  
19 perpetual care fund shall be maintained under section 11525.

20           (b) Financial assurance for a type II landfill that is an  
21 existing unit or a new unit shall be in an amount equal to the  
22 cost, in current dollars, of hiring a third party, to conduct  
23 closure, postclosure maintenance and monitoring, and if necessary,  
24 corrective action. An application for a type II landfill that is an  
25 existing unit or new unit shall demonstrate financial assurance in  
26 accordance with section 11523a.

27           **(C) FINANCIAL ASSURANCE ESTABLISHED FOR AN EXISTING COAL ASH**

1 IMPOUNDMENT SHALL BE IN THE FORM OF A BOND IN AN AMOUNT EQUAL TO  
2 \$20,000.00 PER ACRE WITHIN THE IMPOUNDMENT BOUNDARY. HOWEVER, THE  
3 AMOUNT OF THE BOND SHALL NOT BE LESS THAN \$20,000.00 OR MORE THAN  
4 \$1,000,000.00. THE BOND SHALL PROVIDE ASSURANCE FOR THE MAINTENANCE  
5 OF THE FINISHED COAL ASH IMPOUNDMENT FOR A PERIOD OF 30 YEARS AFTER  
6 THE COAL ASH IMPOUNDMENT OR ANY APPROVED PORTION IS COMPLETED. IN  
7 ADDITION TO THE BOND, A PERPETUAL CARE FUND SHALL BE MAINTAINED  
8 UNDER SECTION 11525.

9 (D) ~~(e)~~—Financial assurance established for a solid waste  
10 transfer facility, incinerator, processing plant, other solid waste  
11 handling or disposal facility, or a combination of these utilized  
12 in the disposal of solid waste shall be in the form of a bond in an  
13 amount equal to 1/4 of 1% of the construction cost of the facility,  
14 but shall not be less than \$4,000.00, and shall be continued in  
15 effect for a period of 2 years after the disposal area is closed.

16 (2) The owner or operator of a landfill may post a cash bond  
17 with the department instead of other bonding mechanisms to fulfill  
18 the remaining financial assurance requirements of this section. An  
19 owner or operator of a disposal area who elects to post cash as a  
20 bond shall accrue interest on that bond at the annual rate of 6%,  
21 to be accrued quarterly, except that the interest rate payable to  
22 an owner or operator shall not exceed the rate of interest accrued  
23 on the state common cash fund for the quarter in which an accrual  
24 is determined. Interest shall be paid to the owner or operator upon  
25 release of the bond by the department. Any interest greater than 6%  
26 shall be deposited in the state treasury to the credit of the  
27 general fund and shall be appropriated to the department to be used

1 by the department for administration of this part.

2 (3) An owner or operator of a disposal area that is not a  
3 landfill who has accomplished closure in a manner approved by the  
4 department and in accordance with this part and the rules  
5 promulgated under this part, may request a 50% reduction in the  
6 bond during the 2-year period after closure. At the end of the 2-  
7 year period, the owner or operator may request that the department  
8 terminate the bond. The department shall approve termination of the  
9 bond within 60 days after the request is made if all waste and  
10 waste residues have been removed from the disposal area and closure  
11 is certified.

12 (4) The department may utilize a bond required under this  
13 section for the closure and postclosure monitoring and maintenance  
14 of a disposal area if the owner or operator fails to comply with  
15 the closure and postclosure monitoring and maintenance requirements  
16 of this part and the rules promulgated under this part to the  
17 extent necessary to correct such violations. At least 7 days before  
18 utilizing the bond, the department shall issue a notice of  
19 violation or other order that alleges violation of this part or  
20 rules promulgated under this part and provide an opportunity for a  
21 hearing. This subsection does not apply to a perpetual care fund  
22 bond.

23 (5) Under the terms of a surety bond, letter of credit,  
24 insurance policy, or perpetual care fund bond, the issuing  
25 institution shall notify both the department and the owner or  
26 operator at least 120 days before the expiration date or any  
27 cancellation of the bond. If the owner or operator does not extend

1 the effective date of the bond, or establish alternate financial  
2 assurance within 90 days after receipt of an expiration or  
3 cancellation notice from the issuing institution, all of the  
4 following apply:

5 (a) The department may draw on the bond.

6 (b) In the case of a perpetual care fund bond, the issuing  
7 institution shall deposit the proceeds into the standby trust or  
8 escrow account unless the department agrees to the expiration or  
9 cancellation of the perpetual care fund bond.

10 (6) The department shall not issue a construction permit or a  
11 new license to operate a disposal area to an applicant that is the  
12 subject of a bankruptcy action commenced under title 11 of the  
13 United States Code, 11 USC 101 to 1532, or any other predecessor or  
14 successor statute.

15 (7) A person required under this section to provide financial  
16 assurance in the form of a bond for a landfill may request a  
17 reduction in the bond based upon the amount of the perpetual care  
18 fund established under section 11525. A person requesting a bond  
19 reduction shall do so on a form consistent with this part and  
20 provided by the department. The department shall grant this request  
21 unless there are sufficient grounds for denial and those reasons  
22 are provided in writing. The department shall grant or deny a  
23 request for a reduction of the bond within 60 days after the  
24 request is made. If the department grants a request for a reduced  
25 bond, the department shall require a bond in an amount such that  
26 for type III landfills, and type II landfills that are preexisting  
27 units, the amount of the perpetual care fund plus the amount of the

1 reduced bond equals the maximum amount required in a perpetual care  
2 fund in section 11525(2).

3 (8) The department shall release the bond required by this  
4 section if the amount of the perpetual care fund exceeds the amount  
5 of the financial assurance required under subsection (1).

6 (9) Prior to closure of a landfill, if money is disbursed from  
7 the perpetual care fund, then the department may require a  
8 corresponding increase in the amount of bonding required to be  
9 provided if necessary to meet the requirements of this section.

10 (10) If an owner or operator of a disposal area fulfills the  
11 financial assurance requirements of this part by obtaining a bond,  
12 including, but not limited to, a perpetual care fund bond, and the  
13 surety company, insurer, trustee, bank, or financial or other  
14 institution that issued or holds the bond becomes the subject of a  
15 bankruptcy action or has its authority to issue or hold the bond or  
16 to act as an escrow agent or trustee suspended or revoked, the  
17 owner or operator shall, within 60 days after receiving notice of  
18 that event, establish alternate financial assurance under this  
19 part.

20 Sec. 11523a. (1) Effective April 9, 1997, the department shall  
21 not issue a license to operate a type II landfill unless the  
22 applicant demonstrates that for any new unit or existing unit at  
23 the facility, the combination of the perpetual care fund  
24 established under section 11525, bonds, and the financial  
25 capability of the applicant as evidenced by a financial test,  
26 provides financial assurance in an amount not less than that  
27 required by this section. An applicant may utilize a financial test

1 for an amount up to, but not exceeding, 70% of the closure,  
2 postclosure, and corrective action cost estimate. **FOR APPLICATIONS**  
3 **FOR A LICENSE TO OPERATE SUBMITTED TO THE DEPARTMENT AFTER THE DATE**  
4 **THAT IS 2 YEARS AFTER THE EFFECTIVE DATE OF THE AMENDATORY ACT THAT**  
5 **ADDED SECTION 11511A, AN APPLICANT THAT DEMONSTRATES THAT IT MEETS**  
6 **THE REQUIREMENTS OF R 299.9709 OF THE MICHIGAN ADMINISTRATIVE CODE**  
7 **MAY UTILIZE THE FINANCIAL TEST UNDER THAT RULE FOR AN AMOUNT NOT**  
8 **EXCEEDING 95% OF THE CLOSURE, POSTCLOSURE, AND CORRECTIVE ACTION**  
9 **COST ESTIMATE.**

10 (2) An applicant may demonstrate compliance with this section  
11 by submitting evidence, with a form consistent with this part and  
12 provided by the department, that the applicant has financial  
13 assurance for any existing unit or new unit in an amount equal to  
14 or greater than the sum of the following standardized costs:

15 (a) A standard closure cost estimate. The standard closure  
16 cost estimate shall be based upon the sum of the following costs in  
17 1996 dollars, adjusted for inflation and partial closures, if any,  
18 as specified in subsections (4) and (5):

19 (i) A base cost of \$20,000.00 per acre to construct a  
20 compacted soil final cover using on-site material.

21 (ii) A supplemental cost of \$20,000.00 per acre, to install a  
22 synthetic cover liner, if required by rules under this part.

23 (iii) A supplemental cost of \$5,000.00 per acre, if low  
24 permeability soil must be transported from off-site to construct  
25 the final cover or if a bentonite geocomposite liner is used  
26 instead of low permeability soil in a composite cover.

27 (iv) A supplemental cost of \$5,000.00 per acre, to construct a

1 passive gas collection system in the final cover, unless an active  
2 gas collection system has been installed at the facility.

3 (b) A standard postclosure cost estimate. The standard  
4 postclosure cost estimate shall be based upon the sum of the  
5 following costs, adjusted for inflation as specified in section  
6 11525(2):

7 (i) A final cover maintenance cost of \$200.00 per acre per  
8 year.

9 (ii) A leachate disposal cost of \$100.00 per acre per year.

10 (iii) A leachate transportation cost of \$1,000.00 per acre per  
11 year, if leachate is required to be transported off-site for  
12 treatment.

13 (iv) A groundwater monitoring cost of \$1,000.00 per monitoring  
14 well per year.

15 (v) A gas monitoring cost of \$100.00 per monitoring point per  
16 year, for monitoring points used to detect landfill gas at or  
17 beyond the facility property boundary.

18 (c) The corrective action cost estimate, if any. The  
19 corrective action cost estimate shall be a detailed written  
20 estimate, in current dollars, of the cost of hiring a third party  
21 to perform corrective action in accordance with this part.

22 (3) Instead of using some or all of the standardized costs  
23 specified in subsection (2), an applicant may estimate the site  
24 specific costs of closure or postclosure maintenance and  
25 monitoring. A site specific cost estimate shall be a written  
26 estimate, in current dollars, of the cost of hiring a third party  
27 to perform the activity. For the purposes of this subsection, a

1 parent corporation or a subsidiary of the owner or operator is not  
2 a third party. Site specific cost estimates shall be based on the  
3 following:

4 (a) For closure, the cost to close the largest area of the  
5 landfill ever requiring a final cover at any time during the active  
6 life, when the extent and manner of its operation would make  
7 closure the most expensive, in accordance with the approved closure  
8 plan. The closure cost estimate may not incorporate any salvage  
9 value that may be realized by the sale of structures, land,  
10 equipment, or other assets associated with the facility at the time  
11 of final closure.

12 (b) For postclosure, the cost to conduct postclosure  
13 maintenance and monitoring in accordance with the approved  
14 postclosure plan for the entire postclosure period.

15 (4) The owner or operator of a landfill subject to this  
16 section shall, during the active life of the landfill and during  
17 the postclosure care period, annually adjust the financial  
18 assurance cost estimates and corresponding amount of financial  
19 assurance for inflation. Cost estimates shall be adjusted for  
20 inflation by multiplying the cost estimate by an inflation factor  
21 derived from the most recent United States ~~department~~ **DEPARTMENT** of  
22 the interior, ~~bureau~~ **INTERIOR, BUREAU** of ~~reclamation~~ **RECLAMATION**  
23 composite index published by the United States ~~department~~  
24 **DEPARTMENT** of ~~commerce~~ **COMMERCE** or another index that is more  
25 representative of the costs of closure and postclosure monitoring  
26 and maintenance as determined appropriate by the department. The  
27 owner or operator shall document the adjustment on a form

1 consistent with this part as prepared by the department and shall  
2 place the documentation in the operating record of the facility.

3 (5) The owner or operator of a landfill subject to this  
4 section may request that the department authorize a reduction in  
5 the approved cost estimates and corresponding financial assurance  
6 for the landfill by submitting a form consistent with this part and  
7 provided by the department certifying completion of any of the  
8 following activities:

9 (a) Partial closure of the landfill. The current closure cost  
10 estimate for partially closed portions of a landfill unit may be  
11 reduced by 80%, if the maximum waste slope on the unclosed portions  
12 of the unit does not exceed 25%. The percentage of the cost  
13 estimate reduction approved by the department for the partially  
14 closed portion shall be reduced 1% for every 1% increase in the  
15 slope of waste over 25% in the active portion. An owner or operator  
16 requesting a reduction in financial assurance for partial closure  
17 shall enclose with the request a certification under the seal of a  
18 licensed professional engineer that certifies both of the  
19 following:

20 (i) That a portion of the licensed landfill unit has reached  
21 final grades and has had a final cover installed in compliance with  
22 the approved closure plan and rules promulgated under this part.

23 (ii) The maximum slope of waste in the active portion of the  
24 landfill unit at the time of partial closure.

25 (b) Final closure of the landfill. An owner or operator  
26 requesting a cost estimate reduction for final closure shall submit  
27 a certification under the seal of a licensed professional engineer

1 that closure of that landfill unit has been fully completed in  
2 accordance with the approved closure plan for the landfill. Within  
3 60 days of receiving a certification under this subsection, the  
4 department shall perform a consistency review of the submitted  
5 certification and do 1 of the following:

6 (i) Approve the certification and notify the owner or operator  
7 that he or she may reduce the closure cost estimate to zero.

8 (ii) Disapprove the certification and provide the owner or  
9 operator with a detailed written statement of the reasons why the  
10 department has determined that closure certification has not been  
11 conducted in accordance with this part, the rules promulgated under  
12 this part, or an approved closure plan.

13 (c) Postclosure maintenance and monitoring. The owner or  
14 operator of a landfill unit who has completed final closure of the  
15 unit may request a reduction in the postclosure cost estimate and  
16 corresponding financial assurance for 1 year or more of postclosure  
17 maintenance and monitoring if the landfill has been monitored and  
18 maintained in accordance with the approved postclosure plan. The  
19 department shall, within 60 days of receiving a cost estimate  
20 reduction request grant written approval or issue a written denial  
21 stating the reason for denial. The department shall grant the  
22 request and the owner or operator may reduce the postclosure cost  
23 estimate to reflect the number of years remaining in the  
24 postclosure period unless the department denies the request and the  
25 written denial states that the owner or operator has not performed  
26 the specific tasks consistent with this part, rules promulgated  
27 under this part, and an approved plan.

1           (6) The owner or operator of a landfill subject to this  
2 section may request a reduction in the amount of one or more of the  
3 financial assurance mechanisms in place. If the combined value of  
4 the remaining financial assurance mechanisms equals the amount  
5 required under this section, the department shall approve the  
6 request.

7           (7) An owner or operator requesting that the department  
8 approve a financial assurance reduction under subsection (5) or (6)  
9 shall do so on a form consistent with this part and provided by the  
10 department. The department shall grant written approval or, within  
11 60 days of receiving a financial assurance reduction request, issue  
12 a written denial stating the reason for the denial.

13           Sec. 11523b. (1) The owner or operator of a landfill **OR COAL**  
14 **ASH IMPOUNDMENT** may establish a trust fund or escrow account to  
15 fulfill the requirements of sections 11523 and 11523a. The trust  
16 fund or escrow account shall be executed on a form provided by the  
17 department.

18           (2) Payments into a trust fund or escrow account shall be made  
19 annually over the term of the first operating license issued after  
20 the effective date of this section. The first payment into a trust  
21 fund or escrow account shall be made prior to licensure and shall  
22 be at least equal to the portion of the financial assurance  
23 requirement to be covered by the trust fund or escrow account  
24 divided by the term of the operating license. Subsequent payments  
25 shall be equal to the remaining financial assurance requirement  
26 divided by the number of years remaining until the license expires.

27           (3) If the owner or operator of a landfill **OR COAL ASH**

1 **IMPOUNDMENT** establishes a trust fund or escrow account after having  
2 used one or more alternate forms of financial assurance, the  
3 initial payment into the trust fund or escrow account shall be at  
4 least the amount the fund would contain if the fund were  
5 established initially and annual payments made according to  
6 subsection (2).

7 (4) All earnings and interest from a trust fund or escrow  
8 account shall be credited to the fund or account. However, the  
9 custodian may be compensated for reasonable fees and costs for his  
10 or her responsibilities as custodian. The custodian shall ensure  
11 the filing of all required tax returns for which the trust fund or  
12 escrow account is liable and shall disburse funds from earnings to  
13 pay lawfully due taxes owed by the trust fund or escrow account,  
14 without permission of the department.

15 (5) The custodian shall annually, 30 days preceding the  
16 anniversary date of establishment of the fund, furnish to the owner  
17 or operator and to the department a statement confirming the value  
18 of the fund or account as of the end of that month.

19 (6) The owner or operator may request that the department  
20 authorize the release of funds from a trust fund or escrow account.  
21 The department shall grant the request if the owner or operator  
22 demonstrates that the value of the fund or account exceeds the  
23 owner's or operator's financial assurance obligation. A payment or  
24 disbursement from the fund or account shall not be made without the  
25 prior written approval of the department.

26 (7) The owner or operator shall receive all interest or  
27 earnings from a trust fund or escrow account upon its termination.

1           (8) ~~For purposes of~~ **AS USED IN** this section, ~~the term~~  
 2 "custodian" means the trustee of a trust fund or escrow agent of an  
 3 escrow account.

4           Sec. 11525. (1) The owner or operator of a landfill **OR COAL**  
 5 **ASH IMPOUNDMENT** shall establish and maintain a perpetual care fund  
 6 for a period of 30 years after final closure of the landfill **OR**  
 7 **COAL ASH IMPOUNDMENT** as specified in this section. A perpetual care  
 8 fund may be established as a trust, an escrow account, or a  
 9 perpetual care fund bond and may be used to demonstrate financial  
 10 assurance for type II **AND TYPE III** landfills **AND COAL ASH**  
 11 **IMPOUNDMENTS** under ~~section~~**SECTIONS** 11523 and ~~section~~11523a.

12           (2) Except as otherwise provided in this section, the owner or  
 13 operator of a landfill shall increase the amount of his or her  
 14 perpetual care fund 75 cents for each ton or portion of a ton or 25  
 15 cents for each cubic yard or portion of a cubic yard of solid waste  
 16 that is disposed of in the landfill after June 17, 1990 until the  
 17 fund reaches the maximum required fund amount. As of July 1, 1996,  
 18 the maximum required fund amount **FOR A LANDFILL OR COAL ASH**  
 19 **IMPOUNDMENT** is \$1,156,000.00. This amount shall be annually  
 20 adjusted for inflation and rounded to the nearest thousand. The  
 21 department shall adjust the maximum required fund amount for  
 22 inflation annually by multiplying the amount by an inflation factor  
 23 derived from the most recent ~~bureau~~**UNITED STATES DEPARTMENT OF THE**  
 24 **INTERIOR, BUREAU** of ~~reclamation~~**RECLAMATION** composite index  
 25 published by the United States ~~department~~**DEPARTMENT** of ~~commerce~~  
 26 **COMMERCE** or another index more representative of the costs of  
 27 closure and postclosure monitoring and maintenance as determined

1 appropriate by the department. Increases to the amount of a  
2 perpetual care fund required under this subsection shall be  
3 calculated based on solid waste disposed of in the landfill as of  
4 the end of the state fiscal year and shall be made within 30 days  
5 after the end of each state fiscal year.

6 (3) The owner or operator of a landfill **OR COAL ASH**  
7 **IMPOUNDMENT** that is used for the disposal of the following  
8 materials shall increase the amount of the perpetual care fund 7.5  
9 cents for each ton or cubic yard or portion of a ton or cubic yard  
10 of the following materials that are disposed of in the landfill  
11 ~~after June 17, 1990:~~**OR COAL ASH IMPOUNDMENT AFTER THE EFFECTIVE**  
12 **DATE OF THE AMENDATORY ACT THAT ADDED SECTION 11511A UNTIL THE FUND**  
13 **REACHES THE MAXIMUM REQUIRED FUND AMOUNT UNDER SUBSECTION (2) :**

14 (a) Coal ash, wood ash, or cement kiln dust that is disposed  
15 of in a landfill that is used only for the disposal of coal ash,  
16 wood ash, or cement kiln dust, or a combination of these materials,  
17 or that is permanently segregated in a landfill.

18 (b) Wastewater treatment sludge or sediments from wood pulp or  
19 paper producing industries that is disposed of in a landfill that  
20 is used only for the disposal of wastewater treatment sludge and  
21 sediments from wood pulp or paper producing industries, or that is  
22 permanently segregated in a landfill.

23 (c) Foundry sand or other material that is approved by the  
24 department for use as daily cover at an operating landfill, that is  
25 disposed of in a landfill that is used only for the disposal of  
26 foundry sand, or that is permanently segregated in a landfill.

27 (4) The owner or operator of a landfill that is used only for

1 the disposal of a mixture of 2 or more of the materials described  
2 in subsection (3) (a) to (c) or in which a mixture of 2 or more of  
3 these materials are permanently segregated shall increase the  
4 amount of the perpetual care fund 7.5 cents for each ton or cubic  
5 yard or portion of a ton or cubic yard of these materials that are  
6 disposed of in the landfill after July 1, 1996.

7 (5) The amount of a perpetual care fund is not required to be  
8 increased for materials that are regulated under part 631.

9 (6) The owner or operator of a landfill may increase the  
10 amount of the perpetual care fund above the amount otherwise  
11 required by this section at his or her discretion.

12 (7) The custodian of a perpetual care fund trust or escrow  
13 account shall be a bank or other financial institution that has the  
14 authority to act as a custodian and whose account operations are  
15 regulated and examined by a federal or state agency. Until the  
16 perpetual care fund trust or escrow account reaches the maximum  
17 required fund amount, the custodian of a perpetual care fund trust  
18 or escrow account shall credit any interest and earnings of the  
19 perpetual care fund trust or escrow account to the perpetual care  
20 fund trust or escrow account. After the perpetual care fund trust  
21 or escrow account reaches the maximum required fund amount, any  
22 interest and earnings shall be distributed as directed by the owner  
23 or operator. The agreement governing the operation of the perpetual  
24 care fund trust or escrow account shall be executed on a form  
25 consistent with this part and provided by the department. The  
26 custodian may be compensated from the fund for reasonable fees and  
27 costs incurred for his or her responsibilities as custodian. The

1 custodian of a perpetual care fund trust or escrow account shall  
2 make an accounting to the department within 30 days following the  
3 close of each state fiscal year.

4 (8) The custodian of a perpetual care fund shall not disburse  
5 any funds to the owner or operator of a landfill **OR COAL ASH**  
6 **IMPOUNDMENT** for the purposes of the perpetual care fund except upon  
7 the prior written approval of the department. However, the  
8 custodian shall ensure the filing of all required tax returns for  
9 which the perpetual care fund is liable and shall disburse funds to  
10 pay lawfully due taxes owed by the perpetual care fund without  
11 permission of the department. The owner or operator of the landfill  
12 **OR COAL ASH IMPOUNDMENT** shall provide notice of requests for  
13 disbursement and denials and approvals to the custodian of the  
14 perpetual care fund. Requests for disbursement from a perpetual  
15 care fund shall be submitted not more frequently than semiannually.  
16 The owner or operator of a landfill **OR COAL ASH IMPOUNDMENT** may  
17 request disbursement of funds from a perpetual care fund whenever  
18 the amount of money in the fund exceeds the maximum required fund  
19 amount. The department shall approve the disbursement if the total  
20 amount of financial assurance maintained meets the requirements of  
21 sections 11523 and 11523a. As used in this subsection, "maximum  
22 required fund amount" means:

23 (a) For those landfills **OR COAL ASH IMPOUNDMENTS** containing  
24 only those materials specified in subsection (3), an amount equal  
25 to 1/2 of the maximum required fund amount specified in subsection  
26 (2).

27 (b) For all other landfills, an amount equal to the maximum

1 required fund amount specified in subsection (2).

2 (9) If the owner or operator of a landfill **OR COAL ASH**  
3 **IMPOUNDMENT** refuses or fails to conduct closure, postclosure  
4 monitoring and maintenance, or corrective action as necessary to  
5 protect the public health, safety, or welfare, or the environment  
6 or fails to request the disbursement of money from a perpetual care  
7 fund when necessary to protect the public health, safety, or  
8 welfare, or the environment, or fails to pay the solid waste  
9 management program administration fee or the surcharge required  
10 under section 11525a, then the department may draw on the perpetual  
11 care fund and may expend the money for closure, postclosure  
12 monitoring and maintenance, and corrective action, as necessary.  
13 The department may draw on a perpetual care fund for administrative  
14 costs associated with actions taken under this subsection.

15 (10) Upon approval by the department of a request to terminate  
16 financial assurance for a landfill **OR COAL ASH IMPOUNDMENT** under  
17 section 11525b, any money in the perpetual care fund for that  
18 landfill **OR COAL ASH IMPOUNDMENT** shall be disbursed by the  
19 custodian to the owner of the landfill **OR COAL ASH IMPOUNDMENT**  
20 unless a contract between the owner and the operator ~~of the~~  
21 ~~landfill~~ provides otherwise.

22 (11) The owner of a landfill **OR COAL ASH IMPOUNDMENT** shall  
23 provide notice to the custodian of the perpetual care fund for that  
24 landfill **OR COAL ASH IMPOUNDMENT** if there is a change of ownership  
25 of the landfill. The custodian shall maintain records of ownership  
26 of a landfill **OR COAL ASH IMPOUNDMENT** during the period of  
27 existence of the perpetual care fund.

1 (12) This section does not relieve an owner or operator of a  
2 landfill **OR COAL ASH IMPOUNDMENT** of any liability that he or she  
3 may have under this part or as otherwise provided by law.

4 (13) This section does not create a cause of action at law or  
5 in equity against a custodian of a perpetual care fund other than  
6 for errors or omissions related to investments, accountings,  
7 disbursements, filings of required tax returns, and maintenance of  
8 records required by this section or the applicable perpetual care  
9 fund.

10 (14) As used in this section, "custodian" means the trustee or  
11 escrow agent of any of the following:

12 (a) A perpetual care fund that is established as a trust or  
13 escrow account.

14 (b) A standby trust or escrow account for a perpetual care  
15 fund bond.

16 (15) A perpetual care fund that is established as a trust or  
17 escrow account may be replaced with a perpetual care fund that is  
18 established as a perpetual care fund bond that complies with this  
19 section. Upon such replacement, the director shall authorize the  
20 custodian of the trust or escrow account to disburse the money in  
21 the trust or escrow account to the owner of the landfill **OR COAL**  
22 **ASH IMPOUNDMENT** unless a contract between the owner and operator of  
23 ~~the landfill~~ specifies otherwise.

24 (16) An owner or operator of a landfill **OR COAL ASH**  
25 **IMPOUNDMENT** who uses a perpetual care fund bond to satisfy the  
26 requirements of this section shall also establish a standby trust  
27 or escrow account. All payments made under the terms of the

1 perpetual care fund bond shall be deposited by the custodian  
2 directly into the standby trust or escrow account in accordance  
3 with instructions from the director. The standby trust or escrow  
4 account must meet the requirements for a trust or escrow account  
5 established as a perpetual care fund under subsection (1), except  
6 that until the standby trust or escrow account is funded pursuant  
7 to the requirements of this subsection, the following are not  
8 required:

9 (a) Payments into the standby trust or escrow account as  
10 specified in subsection (2).

11 (b) Annual accounting valuations as required in subsection  
12 (7).

13 Sec. 11525a. (1) The owner or operator of a landfill **OR COAL**  
14 **ASH IMPOUNDMENT** shall pay a surcharge as follows:

15 (a) ~~Except as provided in subdivision (b),~~ **FOR A LANDFILL OR**  
16 **COAL ASH IMPOUNDMENT THAT IS NOT A CAPTIVE FACILITY**, 12 cents for  
17 each cubic yard or portion of a cubic yard of solid waste or  
18 municipal solid waste incinerator ash that is disposed of in the  
19 landfill **OR COAL ASH IMPOUNDMENT** before October 1, 2019.

20 (b) For **A** type III ~~landfills~~ **LANDFILL OR COAL ASH IMPOUNDMENT**  
21 that ~~are~~ **IS A** captive facilities, ~~FACILITY~~, the following annual  
22 amounts:

23 (i) For a captive facility that receives 100,000 or more cubic  
24 yards of waste, \$3,000.00.

25 (ii) For a captive facility that receives 75,000 or more but  
26 less than 100,000 cubic yards of waste, \$2,500.00.

27 (iii) For a captive facility that receives 50,000 or more but

1 less than 75,000 cubic yards of waste, \$2,000.00.

2 (iv) For a captive facility that receives 25,000 or more but  
3 less than 50,000 cubic yards of waste, \$1,000.00.

4 (v) For a captive facility that receives less than 25,000  
5 cubic yards of waste, \$500.00.

6 (2) The owner or operator of a landfill **OR COAL ASH**  
7 **IMPOUNDMENT THAT IS NOT A CAPTIVE FACILITY** shall pay the surcharge  
8 under subsection (1) (a) within 30 days after the end of each  
9 quarter of the state fiscal year. The owner or operator of a type  
10 III landfill **OR COAL ASH IMPOUNDMENT** that is a captive facility  
11 shall pay the surcharge under subsection (1) (b) by January 31 of  
12 each year.

13 (3) The owner or operator of a landfill **OR COAL ASH**  
14 **IMPOUNDMENT** who is required to pay the surcharge under subsection  
15 (1) shall pass through and collect the surcharge from any person  
16 who generated the solid waste or who arranged for its delivery to  
17 the solid waste hauler or transfer facility notwithstanding the  
18 provisions of any contract or agreement to the contrary or the  
19 absence of any contract or agreement.

20 (4) Surcharges collected under this section shall be forwarded  
21 to the state treasurer for deposit in the solid waste staff account  
22 of the solid waste management fund established in section 11550.

23 ~~—— (5) As used in this section, "captive facility" means a~~  
24 ~~landfill that accepts for disposal only nonhazardous industrial~~  
25 ~~waste generated only by the owner of the landfill or a nonhazardous~~  
26 ~~industrial waste landfill that is described in section 11525(3).~~

27 Sec. 11525b. (1) The owner or operator of a disposal area

1 shall provide continuous financial assurance coverage until  
2 released from these requirements by the department under the  
3 provisions of this part.

4 (2) The owner or operator of a landfill **OR COAL ASH**  
5 **IMPOUNDMENT** who has completed postclosure maintenance and  
6 monitoring ~~of the landfill~~ in accordance with this part, rules  
7 promulgated under this part, and approved postclosure plan may  
8 request that financial assurance required by sections 11523 and  
9 11523a be terminated. A person requesting termination of bonding  
10 and financial assurance shall submit to the department a statement  
11 that the landfill **OR COAL ASH IMPOUNDMENT** has been monitored and  
12 maintained in accordance with this part, rules promulgated under  
13 this part, and the approved postclosure plan for the postclosure  
14 period specified in section 11523 and shall certify that the  
15 landfill **OR COAL ASH IMPOUNDMENT** is not subject to corrective  
16 action under section 11515. Within 60 days of receiving a statement  
17 under this subsection, the department shall perform a consistency  
18 review of the submitted statement and do 1 of the following:

19 (a) Approve the statement, notify the owner or operator that  
20 he or she is no longer required to maintain financial assurance,  
21 return or release all financial assurance mechanisms, and, if the  
22 perpetual care fund is established as a trust or escrow account,  
23 notify the custodian of the perpetual care fund that money from the  
24 fund shall be disbursed as provided in section 11525(10).

25 (b) Disapprove the statement and provide the owner or operator  
26 with a detailed written statement of the reasons why the department  
27 has determined that postclosure maintenance and monitoring and

1 corrective action, if any, have not been conducted in accordance  
2 with this part, the rules promulgated under this part, or an  
3 approved postclosure plan.

4 Sec. 11528. (1) A solid waste transporting unit used for  
5 garbage, industrial or domestic sludges, or other moisture laden  
6 materials not specifically covered by part 121 shall be watertight  
7 and constructed, maintained, and operated to prevent littering.  
8 Solid waste transporting units used for hauling other solid waste  
9 shall be designed and operated to prevent littering or any other  
10 nuisance.

11 (2) A solid waste hauler who violates this part or the rules  
12 promulgated under this part is subject to the penalties provided in  
13 this part.

14 (3) The department, a health officer, or a law enforcement  
15 officer may order a solid waste transporting unit out of service if  
16 the unit does not ~~satisfy~~ **COMPLY WITH** the requirements of this part  
17 or the rules promulgated under this part. Continued use of a solid  
18 waste transporting unit ordered out of service is a violation of  
19 this part.

20 Sec. 11538. (1) Not later than September 11, 1979, the  
21 director shall promulgate rules for the development, form, and  
22 submission of initial solid waste management plans. The rules shall  
23 require all of the following:

24 (a) The establishment of goals and objectives for prevention  
25 of adverse effects on the public health and on the environment  
26 resulting from improper solid waste collection, processing, or  
27 disposal including protection of surface and groundwater quality,

1 air quality, and the land.

2 (b) An evaluation of waste problems by type and volume,  
3 including residential and commercial solid waste, hazardous waste,  
4 industrial sludges, pretreatment residues, municipal sewage sludge,  
5 air pollution control residue, and other wastes from industrial or  
6 municipal sources.

7 (c) An evaluation and selection of technically and  
8 economically feasible solid waste management options, which may  
9 include sanitary landfill, resource recovery systems, resource  
10 conservation, or a combination of options.

11 (d) An inventory and description of all existing facilities  
12 where solid waste is being treated, processed, or disposed of,  
13 including a summary of the deficiencies, if any, of the facilities  
14 in meeting current solid waste management needs.

15 (e) The encouragement and documentation as part of the solid  
16 waste management plan, of all opportunities for participation and  
17 involvement of the public, all affected agencies and parties, and  
18 the private sector.

19 (f) That the solid waste management plan contain enforceable  
20 mechanisms for implementing the plan, including identification of  
21 the municipalities within the county responsible for the  
22 enforcement and may contain a mechanism for the county and those  
23 municipalities to assist the department and the state police in  
24 implementing and conducting the inspection program established in  
25 section 11526(2) and (3). This subdivision does not preclude the  
26 private sector's participation in providing solid waste management  
27 services consistent with the solid waste management plan for the

1 county.

2 (g) Current and projected population densities of each county  
3 and identification of population centers and centers of solid waste  
4 generation, including industrial wastes.

5 (h) That the solid waste management plan area has, and will  
6 have during the plan period, access to a sufficient amount of  
7 available and suitable land, accessible to transportation media, to  
8 accommodate the development and operation of solid waste disposal  
9 areas, or resource recovery facilities provided for in the plan.

10 (i) That the solid waste disposal areas or resource recovery  
11 facilities provided for in the solid waste management plan are  
12 capable of being developed and operated in compliance with state  
13 law and rules of the department pertaining to protection of the  
14 public health and the environment, considering the available land  
15 in the plan area, and the technical feasibility of, and economic  
16 costs associated with, the facilities.

17 (j) A timetable or schedule for implementing the solid waste  
18 management plan.

19 (2) Each solid waste management plan shall identify specific  
20 sites for solid waste disposal areas for a 5-year period after  
21 approval of a plan or plan update. In calculating disposal need  
22 requirements to measure compliance with this section, only those  
23 existing waste stream volume reduction levels achieved through  
24 source reduction, reuse, composting, recycling, or incineration, or  
25 any combination of these reduction devices, that can currently be  
26 demonstrated or that can be reasonably expected to be achieved  
27 through currently active implementation efforts for proposed volume

1 reduction projects, may be assumed by the planning entity. In  
 2 addition, if the solid waste management plan does not also identify  
 3 specific sites for solid waste disposal areas for the remaining  
 4 portion of the entire planning period required by this part after  
 5 approval of a plan or plan update, the solid waste management plan  
 6 shall include an interim siting mechanism and an annual  
 7 certification process as described in subsections ~~(3)~~ **(4)** and ~~(4)~~.  
 8 **(5)**. In calculating the capacity of identified disposal areas to  
 9 determine if disposal needs are met for the entire required  
 10 planning period, full achievement of the solid waste management  
 11 plan's volume reduction goals may be assumed by the planning entity  
 12 if the plan identifies a detailed programmatic approach to  
 13 achieving these goals. If a siting mechanism is not included, and  
 14 disposal capacity falls to less than 5 years of capacity, a county  
 15 shall amend the solid waste management plan for that county to  
 16 resolve the shortfall.

17 **(3) AN EXISTING CAPTIVE TYPE III COAL ASH LANDFILL OR EXISTING**  
 18 **CAPTIVE COAL ASH IMPOUNDMENT, OR BOTH, IS CONSIDERED CONSISTENT**  
 19 **WITH AND INCLUDED IN THE SOLID WASTE MANAGEMENT PLAN FOR THE COUNTY**  
 20 **OR REGION IN WHICH THE DISPOSAL AREA IS LOCATED IF THE DISPOSAL**  
 21 **AREA CONTINUES TO ACCEPT WASTE GENERATED ONLY BY THE OWNER OF THE**  
 22 **DISPOSAL AREA AND MEETS ANY OF THE FOLLOWING REQUIREMENTS:**

23 **(A) WAS ISSUED A CONSTRUCTION PERMIT AND LICENSED FOR**  
 24 **OPERATION UNDER THIS PART.**

25 **(B) MET LOCAL LAND USE LAW REQUIREMENTS WHEN INITIALLY SITED**  
 26 **OR CONSTRUCTED.**

27 **(4)** ~~(3)~~—An interim siting mechanism shall include both a

1 process and a set of minimum siting criteria, both of which are not  
2 subject to interpretation or discretionary acts by the planning  
3 entity, and which if met by an applicant submitting a disposal area  
4 proposal, will guarantee a finding of consistency with the plan.  
5 The interim siting mechanism shall be operative upon the call of  
6 the board of commissioners or shall automatically be operative  
7 whenever the annual certification process shows that available  
8 disposal capacity will provide for less than 66 months of disposal  
9 needs. In the latter event, applications for a finding of  
10 consistency from the proposers of disposal area capacity will be  
11 received by the planning agency commencing on January 1 following  
12 completion of the annual certification process. Once operative, an  
13 interim siting mechanism will remain operative for at least 90 days  
14 or until more than 66 months of disposal capacity is once again  
15 available, either by the approval of a request for consistency or  
16 by the adoption of a new annual certification process which  
17 concludes that more than 66 months of disposal capacity is  
18 available.

19 (5) ~~(4)~~—An annual certification process shall be concluded by  
20 June 30 of each year, commencing on the first June 30 which is more  
21 than 12 months after the department's approval of the solid waste  
22 management plan or plan update. The certification process will  
23 examine the remaining disposal area capacity available for solid  
24 wastes generated within the planning area. In calculating disposal  
25 need requirements to measure compliance with this section, only  
26 those existing waste stream volume reduction levels achieved  
27 through source reduction, reuse, composting, recycling, or

1 incineration, or any combination of these reduction devices, that  
2 can currently be demonstrated or that can be reasonably expected to  
3 be achieved through currently active implementation efforts for  
4 proposed volume reduction projects, may be assumed. The annual  
5 certification of disposal capacity shall be approved by the board  
6 of commissioners. Failure to approve an annual certification by  
7 June 30 is equivalent to a finding that less than a sufficient  
8 amount of capacity is available and the interim siting mechanism  
9 will then be operative on the first day of the following January.  
10 As part of the department's responsibility to act on construction  
11 permit applications, the department has final decision authority to  
12 approve or disapprove capacity certifications and to determine  
13 consistency of a proposed disposal area with the solid waste  
14 management plan.

15       **(6)** ~~(5)~~—A board of commissioners may adopt a new certification  
16 of disposal capacity at any time. A new certification of disposal  
17 capacity shall supersede all previous certifications, and become  
18 effective 30 days after adoption by the board of commissioners and  
19 remain in effect until subsequent certifications are adopted.

20       **(7)** ~~(6)~~—In order for a disposal area to serve the disposal  
21 needs of another county, state, or country, the service, including  
22 the disposal of municipal solid waste incinerator ash, must be  
23 explicitly authorized in the approved solid waste management plan  
24 of the receiving county. With regard to intercounty service within  
25 Michigan, the service must also be explicitly authorized in the  
26 solid waste management plan of the exporting county.

27       **(8)** ~~(7)~~—A person shall not dispose of, store, or transport

1 solid waste in this state unless the person complies with the  
2 requirements of this part.

3 (9) ~~(8)~~—An ordinance, law, rule, regulation, policy, or  
4 practice of a municipality, county, or governmental authority  
5 created by statute, which prohibits or regulates the location or  
6 development of a solid waste disposal area, and which is not part  
7 of or not consistent with the approved solid waste management plan  
8 for the county, shall be considered in conflict with this part and  
9 shall not be enforceable.

10 Sec. 11539. (1) The director shall not approve a plan update  
11 unless:

12 (a) The plan contains an analysis or evaluation of the best  
13 available information applicable to the plan area in regard to  
14 recyclable materials and all of the following:

15 (i) The kind and volume of material in the plan area's waste  
16 stream that may be recycled or composted.

17 (ii) How various factors do or may affect a recycling and  
18 composting program in the plan area. Factors shall include an  
19 evaluation of the existing solid waste collection system; materials  
20 market; transportation networks; local composting and recycling  
21 support groups, or both; institutional arrangements; the population  
22 in the plan area; and other pertinent factors.

23 (iii) An identification of impediments to implementing a  
24 recycling and composting program and recommended strategies for  
25 removing or minimizing impediments.

26 (iv) How recycling and composting and other processing or  
27 disposal methods could complement each other and an examination of

1 the feasibility of excluding site separated material and source  
2 separated material from other processing or disposal methods.

3 (v) Identification and quantification of environmental,  
4 economic, and other benefits that could result from the  
5 implementation of a recycling and composting program.

6 (vi) The feasibility of source separation of materials that  
7 contain potentially hazardous components at disposal areas. This  
8 subparagraph applies only to plan updates that are due after  
9 January 31, 1989.

10 (b) The plan either provides for recycling and composting  
11 recyclable materials from the plan area's waste stream or  
12 establishes that recycling and composting are not necessary or  
13 feasible or is only necessary or feasible to a limited extent.

14 (c) A plan that proposes a recycling or composting program, or  
15 both, details the major features of that program, including all of  
16 the following:

17 (i) The kinds and volumes of recyclable materials that will be  
18 recycled or composted.

19 (ii) Collection methods.

20 (iii) Measures that will ensure collection such as ordinances  
21 or cooperative arrangements, or both.

22 (iv) Ordinances or regulations affecting the program.

23 (v) The role of counties and municipalities in implementing  
24 the plan.

25 (vi) The involvement of existing recycling interests, solid  
26 waste haulers, and the community.

27 (vii) Anticipated costs.

- 1 (viii) On-going program financing.  
2 (ix) Equipment selection.  
3 (x) Public and private sector involvement.  
4 (xi) Site availability and selection.  
5 (xii) Operating parameters such as pH and heat range.  
6 (d) The plan includes an evaluation of how the planning entity  
7 is meeting the state's waste reduction and recycling goals as  
8 established pursuant to section 11541(4).

9 **(2) A DISPOSAL AREA PERMITTED, LICENSED, OR OTHERWISE IN**  
10 **EXISTENCE ON THE DATE OF APPROVAL OF THE SOLID WASTE MANAGEMENT**  
11 **PLAN FOR THE PLANNING AREA WHERE THE DISPOSAL AREA IS LOCATED SHALL**  
12 **BE CONSIDERED TO BE CONSISTENT WITH THE PLAN AND INCLUDED IN THE**  
13 **PLAN.**

14 **(3) ~~(2)~~**—The director may promulgate rules as may be necessary  
15 to implement this section.

16 Sec. 11542. (1) Except as provided in subsection (5) and  
17 except for municipal solid waste incinerator ash that is described  
18 and used as provided in section 11506(6)(h), municipal solid waste  
19 incinerator ash shall be disposed of in 1 of the following:

20 (a) A landfill that meets all of the following requirements:

21 (i) The landfill is in compliance with this part and the rules  
22 promulgated under this part.

23 (ii) The landfill is used exclusively for the disposal of  
24 municipal solid waste incinerator ash.

25 (iii) The landfill design includes all of the following in  
26 descending order according to their placement in the landfill:

27 (A) A leachate collection system.

1 (B) A synthetic liner at least 60 mils thick.

2 (C) A compacted clay liner of 5 feet or more with a maximum  
3 hydraulic conductivity of  $1 \times 10^{-7}$  centimeters per second.

4 (D) A leak detection and leachate collection system.

5 (E) A compacted clay liner at least 3 feet thick with a  
6 maximum hydraulic conductivity of  $1 \times 10^{-7}$  centimeters per second  
7 or a synthetic liner at least 40 mils thick.

8 (b) A landfill that meets all of the following requirements:

9 (i) The landfill is in compliance with this part and the rules  
10 promulgated under this part.

11 (ii) The landfill is used exclusively for the disposal of  
12 municipal solid waste incinerator ash.

13 (iii) The landfill design includes all of the following in  
14 descending order according to their placement in the landfill:

15 (A) A leachate collection system.

16 (B) A composite liner, as defined in R 299.4102 of the

17 ~~Michigan administrative code.~~ **PART 115 RULES.**

18 (C) A leak detection and leachate collection system.

19 (D) A second composite liner.

20 (iv) If contaminants that may threaten the public health,  
21 safety, or welfare, or the environment are found in the leachate  
22 collection system described in subparagraph (iii) (C), the owner or  
23 operator of the landfill shall determine the source and nature of  
24 the contaminants and make repairs, to the extent practicable, that  
25 will prevent the contaminants from entering the leachate collection  
26 system. If the department determines that the source of the  
27 contaminants is caused by a design failure of the landfill, the

1 department, notwithstanding an approved construction permit or  
2 operating license, may require landfill cells at that landfill that  
3 will be used for the disposal of municipal solid waste incinerator  
4 ash, which are under construction or will be constructed in the  
5 future at the landfill, to be constructed in conformance with  
6 improved design standards approved by the department. However, this  
7 subparagraph does not require the removal of liners or leak  
8 detection and leachate collection systems that are already in place  
9 in a landfill cell under construction.

10 (c) A landfill that is a monitorable unit, as defined in R  
11 299.4104 of the ~~Michigan administrative code~~, **PART 115 RULES**, and  
12 that meets all of the following requirements:

13 (i) The landfill is in compliance with this part and the rules  
14 promulgated under this part.

15 (ii) The landfill is used exclusively for the disposal of  
16 municipal solid waste incinerator ash.

17 (iii) The landfill design includes all of the following in  
18 descending order according to their placement in the landfill:

19 (A) A leachate collection system.

20 (B) A synthetic liner at least 60 mils thick.

21 (C) Immediately below the synthetic liner, either 2 feet of  
22 compacted clay with a maximum hydraulic conductivity of  $1 \times 10^{-7}$   
23 centimeters per second or a bentonite geocomposite liner, as  
24 specified in R 299.4914 of the ~~Michigan administrative code~~. **PART**  
25 **115 RULES**.

26 (D) At least 10 feet of either natural or compacted clay with  
27 a maximum hydraulic conductivity of  $1 \times 10^{-7}$  centimeters per

1 second, or equivalent.

2 (d) A landfill with a design approved by the department that  
3 will prevent the migration of any hazardous constituent into the  
4 groundwater or surface water at least as effectively as the design  
5 requirements of subdivisions (a) to (c).

6 (e) A type II landfill, as described in R 299.4105 of the  
7 ~~Michigan administrative code, PART 115 RULES~~ if both of the  
8 following conditions apply:

9 (i) The ash was generated by a municipal solid waste  
10 incinerator that is designed to burn at a temperature in excess of  
11 2500 degrees Fahrenheit.

12 (ii) The ash from any individual municipal solid waste  
13 incinerator is disposed of pursuant to this subdivision for a  
14 period not to exceed 60 days.

15 (2) Except as provided in subsection (3), a landfill that is  
16 constructed pursuant to the design described in subsection (1)  
17 shall be capped following its closure by all of the following in  
18 descending order:

19 (a) Six inches of top soil with a vegetative cover.

20 (b) Two feet of soil to protect against animal burrowing,  
21 temperature, erosion, and rooted vegetation.

22 (c) An infiltration collection system.

23 (d) A synthetic liner at least 30 mils thick.

24 (e) Two feet of compacted clay with a maximum hydraulic  
25 conductivity of  $1 \times 10^{-7}$  centimeters per second.

26 (3) A landfill that receives municipal solid waste incinerator  
27 ash under this section may be capped with a design approved by the

1 department that will prevent the migration of any hazardous  
2 constituent into the groundwater or surface water at least as  
3 effectively as the design requirements of subsection (2).

4 (4) If leachate is collected from a landfill under this  
5 section, the leachate shall be monitored and tested in accordance  
6 with this part and the rules promulgated under this part.

7 (5) As an alternative to disposal described in subsection (1),  
8 the owner or operator of a municipal solid waste incinerator may  
9 process municipal solid waste incinerator ash through mechanical or  
10 chemical methods, or both, to substantially diminish the toxicity  
11 of the ash or its constituents or limit the leachability of the ash  
12 or its constituents to minimize threats to human health and the  
13 environment, if processing is performed on the site of the  
14 municipal solid waste incinerator or at the site of a landfill  
15 described in subsection (1), if the process has been approved by  
16 the department as provided by rule, and if the ash is tested after  
17 processing in accordance with a protocol approved by the department  
18 as provided by rule. The department shall approve the process and  
19 testing protocol under this subsection only if the process and  
20 testing protocol will protect human health and the environment. In  
21 making this determination, the department shall consider all  
22 potential pathways of human and environmental exposure, including  
23 both short-term and long-term, to constituents of the ash that may  
24 be released during the reuse or recycling of the ash. The  
25 department shall consider requiring methods to determine the  
26 leaching, total chemical analysis, respirability, and toxicity of  
27 reused or recycled ash. A leaching procedure shall include testing

1 under both acidic and native conditions. If municipal solid waste  
2 incinerator ash is processed in accordance with the requirements of  
3 this subsection and the processed ash satisfies the testing  
4 protocol approved by the department as provided by rule, the ash  
5 may be disposed of in a municipal solid waste landfill, as defined  
6 by R 299.4104 of the ~~Michigan administrative code~~, **PART 115 RULES**,  
7 licensed under this part or may be used in any manner approved by  
8 the department. If municipal solid waste incinerator ash is  
9 processed as provided in this subsection, but does not ~~satisfy~~  
10 **COMPLY WITH** the testing protocol approved by the department as  
11 provided by rule, the ash shall be disposed of in accordance with  
12 subsection (1).

13 (6) The disposal of municipal solid waste incinerator ash  
14 within a landfill that is in compliance with subsection (1) does  
15 not constitute a new proposal for which a new construction permit  
16 is required under section 11509, if a construction permit has  
17 previously been issued under section 11509 for the landfill and the  
18 owner or operator of the landfill submits 6 copies of an operating  
19 license amendment application to the department for approval  
20 pursuant to part 13. The operating license amendment application  
21 shall include revised plans and specifications for all facility  
22 modifications including a leachate disposal plan, an erosion  
23 control plan, and a dust control plan which shall be part of the  
24 operating license amendment. The dust control plan shall contain  
25 sufficient detail to ensure that dust emissions are controlled by  
26 available control technologies that reduce dust emissions by a  
27 reasonably achievable amount to the extent necessary to protect

1 human health and the environment. The dust control plan shall  
2 provide for the ash to be wet during all times that the ash is  
3 exposed to the atmosphere at the landfill or otherwise to be  
4 covered by daily cover material; for dust emissions to be  
5 controlled during dumping, grading, loading, and bulk transporting  
6 of the ash at the landfill; and for dust emissions from access  
7 roads within the landfill to be controlled. With the exception of a  
8 landfill that is in existence on June 12, 1989 that the department  
9 determines is otherwise in compliance with this section, the owner  
10 or operator of the landfill shall obtain the operating license  
11 amendment prior to initiating construction. Prior to operation, the  
12 owner or operator of a landfill shall submit to the department  
13 certification from a licensed professional engineer that the  
14 landfill has been constructed in accordance with the approved plan  
15 and specifications. When the copies are submitted to the  
16 department, the owner or operator of the landfill shall send a copy  
17 of the operating license amendment application to the municipality  
18 where the landfill is located. At least 30 days prior to making a  
19 final decision on the operating license amendment, the department  
20 shall hold at least 1 public meeting in the vicinity of the  
21 landfill to receive public comments. Prior to a public meeting, the  
22 department shall publish notice of the meeting in a newspaper  
23 serving the local area.

24 (7) The owner or operator of a municipal solid waste  
25 incinerator or a disposal area that receives municipal solid waste  
26 incinerator ash shall allow the department access to the facility  
27 for the purpose of supervising the collection of samples or

1 obtaining samples of ash to test or to monitor air quality at the  
2 facility.

3 (8) As used in subsection (1), "landfill" means a landfill or  
4 a specific portion of a landfill.

5 Sec. 11550. (1) The solid waste management fund is created  
6 within the state treasury. The state treasurer may receive money  
7 from any source for deposit into the fund. The state treasurer  
8 shall direct the investment of the fund. The state treasurer shall  
9 credit to the fund interest and earnings from fund investments.

10 (2) Money in the solid waste management fund at the close of  
11 the fiscal year shall remain in the fund and shall not lapse to the  
12 general fund.

13 (3) The state treasurer shall establish, within the solid  
14 waste management fund, a solid waste staff account and a perpetual  
15 care account.

16 (4) Money shall be expended from the solid waste staff  
17 account, upon appropriation, only for the following purposes:

18 (a) Preparing generally applicable guidance regarding the  
19 solid waste permit and license program or its implementation or  
20 enforcement.

21 (b) Reviewing and acting on any application for a permit or  
22 license, permit or license revision, or permit or license renewal,  
23 including the cost of public notice and public hearings.

24 (c) Performing an advisory analysis under section 11510(1).

25 (d) General administrative costs of running the permit and  
26 license program, including permit and license tracking and data  
27 entry.

1 (e) Inspection of licensed disposal areas and open dumps.

2 (f) Implementing and enforcing the conditions of any permit or  
3 license.

4 (g) Groundwater monitoring audits at disposal areas which are  
5 or have been licensed under this part.

6 (h) Reviewing and acting upon corrective action plans for  
7 disposal areas which are or have been licensed under this part.

8 (i) Review of certifications of closure.

9 (j) Postclosure maintenance and monitoring inspections and  
10 review.

11 (k) Review of bonds and financial assurance documentation at  
12 disposal areas which are or have been licensed under this part.

13 (5) Money shall be expended from the perpetual care account,  
14 **UPON APPROPRIATION**, only for the purpose of conducting the  
15 following activities at disposal areas which are or have been  
16 licensed under this part:

17 (a) Postclosure maintenance and monitoring at a disposal area  
18 where the owner or operator is no longer required to do so.

19 (b) To conduct closure, or postclosure maintenance and  
20 monitoring and corrective action if necessary, at a disposal area  
21 where the owner or operator has failed to do so. Money shall be  
22 expended from the account only after funds from any perpetual care  
23 fund or other financial assurance mechanisms held by the owner or  
24 operator have been expended and the department has used reasonable  
25 efforts to obtain funding from other sources.

26 (6) By March 1 annually, the department shall prepare and  
27 submit to the governor, the legislature, the chairs of the standing

1 committees of the senate and house of representatives with primary  
2 responsibility for issues related to natural resources and the  
3 environment, and the chairs of the subcommittees of the senate and  
4 house appropriations committees with primary responsibility for  
5 appropriations to the department a report that details the  
6 activities of the previous fiscal year funded by the staff account  
7 of the solid waste management fund. ~~established in this section.~~
