2 solid waste boundary shall be considered a modification and not a
3 vertical expansion.

4 (6) A person who applies to permit more than 1 type of
5 disposal area at the same facility shall pay a fee equal to the sum

21 the department and the department of natural resources that has
22 responsibilities in land, air, or water management, and the
23 designated regional solid waste management planning agency.

24 (b) Publish a notice in a newspaper having major circulation
25 in the vicinity of the proposed disposal area. The required
26 published notice shall contain a map indicating the location of the
27 proposed disposal area and shall contain a description of the

1 proposed disposal area and the location where the complete
2 application package may be reviewed and where copies may be
3 obtained.

4 (c) Indicate in the public, departmental, and municipality
5 notice that the department shall hold a public hearing in the area
6 of the proposed disposal area if a written request is submitted by
7 the applicant or a municipality within 30 days after the date of
8 publication of the notice, or by a petition submitted to the
9 department containing a number of signatures equal to not less than
10 10% of the number of registered voters of the municipality where
11 the proposed disposal area is to be located who voted in the last
12 gubernatorial election. The petition shall be validated by the
13 clerk of the municipality. The public hearing shall be held after
14 the department makes a preliminary review of the application and
15 all pertinent data and before a construction permit is issued or
16 denied.

17 (d) Conduct a consistency review of the plans of the proposed
18 disposal area to determine if it complies with this part and the
19 rules promulgated under this part. The review shall be made by
20 persons qualified in hydrogeology and sanitary landfill
21 engineering. A written acknowledgment that the application package
22 is in compliance with the requirements of this part and rules
23 promulgated under this part by the persons qualified in
24 hydrogeology and sanitary landfill engineering shall be received
25 before a construction permit is issued. If the consistency review
26 of the site and the plans and the application meet the requirements
27 of this part and the rules promulgated under this part, the

1 department shall issue a construction permit that may contain a
2 stipulation specifically applicable to the site and operation.
3 Except as otherwise provided in section 11542, an expansion of the
4 area of a disposal area, an enlargement in capacity of a disposal
5 area, or an alteration of a disposal area to a different type of
6 disposal area than had been specified in the previous construction
7 permit application constitutes a new proposal for which a new
8 construction permit is required. The upgrading of a disposal area
9 type required by the department to comply with this part or the
10 rules promulgated under this part or to comply with a consent order
11 does not require a new construction permit.

12 (e) Notify the Michigan aeronautics commission if the disposal
13 area is a sanitary landfill that is a new site or a lateral
14 ~~extension~~**EXPANSION** or vertical expansion of an existing unit
15 proposed to be located within 5 miles of a runway or a proposed
16 runway extension contained in a plan approved by the Michigan
17 aeronautics commission of an airport licensed and regulated by the
18 Michigan aeronautics commission. The department shall make a copy
19 of the application available to the Michigan aeronautics
20 commission. If, after a period of time for review and comment not
21 to exceed 60 days, the Michigan aeronautics commission informs the
22 department that it finds that operation of the proposed disposal
23 area would present a potential hazard to air navigation and
24 presents the basis for its findings, the department may either
25 recommend appropriate changes in the location, construction, or
26 operation of the proposed disposal area or deny the application for
27 a construction permit. The department shall give an applicant an

1 opportunity to rebut a finding of the Michigan aeronautics
2 commission that the operation of a proposed disposal area would
3 present a potential hazard to air navigation. The Michigan
4 aeronautics commission shall notify the department and the owner or
5 operator of a landfill if the Michigan aeronautics commission is
6 considering approving a plan that would provide for a runway or the
7 extension of a runway within 5 miles of a landfill.

10 NOT REQUIRED TO BE PROVIDED WITH THE APPLICATION.

11 (2) THE DEPARTMENT SHALL NOT ISSUE A LICENSE TO A COAL ASH

17 authorized in the approved county solid waste management plan.

18 (2) SUBSECTION (1) DOES NOT APPLY TO COAL ASH THAT IS ACCEPTED
19 FOR DISPOSAL AT A CAPTIVE FACILITY THAT, AFTER THE EFFECTIVE DATE
20 OF THE AMENDATORY ACT THAT ADDED THIS SUBSECTION, ACCEPTS ONLY
21 NONHAZARDOUS INDUSTRIAL WASTE GENERATED ONLY BY THE OWNER OF THE
22 LANDFILL OR COAL ASH IMPOUNDMENT OR ITS CORPORATE AFFILIATES.

23 (3) The department shall take action to enforce this section
24 within 30 days of obtaining knowledge of a violation of this
25 section.

1 health officer shall inspect the site and determine if the proposed
2 operation complies with this part and the rules promulgated under
3 this part.

4 (2) The department shall not license a landfill facility **OR**
5 **COAL ASH IMPOUNDMENT** operating without an approved hydrogeologic
6 monitoring program until the department receives a hydrogeologic
7 monitoring program and the results of the program. The department
8 shall use this information in conjunction with other information
9 required by this part or the rules promulgated under this part to
10 determine a course of action regarding licensing of the facility
11 consistent with section 4005 of subtitle D of the solid waste
12 disposal act, title II of Public Law 89-272, 42 U.S.C.—**USC** 6945,
13 and with this part and the rules promulgated pursuant to this part.
14 In deciding a course of action, the department shall consider, at a

20 **PREVIOUSLY LICENSED UNDER THIS PART.**

21 (C) **ISSUE** a timetable or schedule to provide for compliance
22 for the ~~facility or operation,~~ **LANDFILL OR COAL ASH IMPOUNDMENT,**
23 specifying a schedule of remedial measures, including a sequence of
24 actions or operations, which leads to compliance with this part
25 within a reasonable time period but not ~~later~~ **MORE** than ~~December 2,~~
26 ~~1987.~~ **1 YEAR.**

27 Sec. 11516. (1) The department shall conduct a consistency

1 review before making a final decision on a license application. The
2 department shall notify the clerk of the municipality in which the
3 disposal area is located and the applicant of its approval or
4 denial of a license application within 10 days after the final
5 decision is made.

6 (2) An operating license shall expire 5 years after the date
7 of issuance. An operating license may be renewed before expiration
8 upon payment of a renewal application fee specified in section
9 11512(8) if the licensee is in compliance with this part and the
10 rules promulgated under this part.

11 (3) The issuance of the operating license under this part
12 empowers the department or a health officer or an authorized
13 representative of a health officer to enter at any reasonable time,
14 pursuant to law, in or upon private or public property licensed
15 under this part for the purpose of inspecting or investigating
16 conditions relating to the storage, processing, or disposal of any
17 material.

18 (4) Except as otherwise provided in this subsection, the
19 department shall not issue an operating license for a new disposal
20 area within a planning area unless a solid waste management plan
21 for that planning area has been approved pursuant to sections 11536
22 and 11537 and unless the disposal area complies with and is
23 consistent with the approved solid waste management plan. ~~The~~
24 ~~department may issue an operating license for a disposal area~~
25 ~~designed to receive ashes produced in connection with the~~
26 ~~combustion of fossil fuels for electrical power generation~~ **THIS**
27 **SUBSECTION DOES NOT PROHIBIT THE ISSUANCE OF A LICENSE FOR A**

1 **CAPTIVE FACILITY THAT IS A COAL ASH IMPOUNDMENT OR A COAL ASH**
2 **LANDFILL** in the absence of an approved county solid waste
3 management plan, upon receipt of a letter of approval from
4 whichever county or counties, group of municipalities, or regional
5 planning agency has prepared or is preparing the county solid waste
6 management plan for that planning area under section 11533 and from
7 the municipality in which the disposal area is to be located.

8 (5) Issuance of an operating license by the department
9 authorizes the licensee to accept waste for disposal in certified
10 portions of the disposal area for which a bond was established
11 under section 11523 and, for type II landfills, for which financial
12 assurance was demonstrated under section 11523a. If the
13 construction of a portion of a landfill licensed under this section
14 is not complete at the time of license application, the owner or
15 operator of the landfill shall submit a certification under the
16 seal of a licensed professional engineer verifying that the
17 construction of that portion of the landfill has proceeded
18 according to the approved plans at least 60 days prior to the
19 anticipated date of waste disposal in that portion of the landfill.
20 If the department does not deny the certification within 60 days of
21 receipt, the owner or operator may accept waste for disposal in the
22 certified portion. In the case of a denial, the department shall
23 issue a written statement stating the reasons why the construction
24 or certification is not consistent with this part or rules
25 promulgated under this part or the approved plans.

26 Sec. 11518. (1) At the time a disposal area that is a sanitary
27 landfill is licensed, an instrument that imposes a restrictive

1 covenant upon the land involved shall be executed by all of the
2 owners of the tract of land upon which the landfill is to be
3 located and the department. If the land involved is state owned,
4 the state administrative board shall execute the covenant on behalf
5 of the state. The instrument imposing the restrictive covenant
6 shall be filed for record by the department or a health officer in
7 the office of the register of deeds of the county, or counties, in
8 which the facility is located. The covenant shall state that the
9 land described in the covenant has been or will be used as a
10 landfill and that neither the property owners, their servants,
11 agents, or employees, nor any of their heirs, successors, lessees,
12 or assigns shall engage in filling, grading, excavating, drilling,
13 or mining on the property during the first 50 years following
14 completion of the landfill without authorization of the department.
15 In giving authorization, the department shall consider the original
16 design, type of operation, material deposited, and the stage of
17 decomposition of the fill. Special exemption from this section may
18 be granted by the department if the lands involved are federal
19 lands or if contracts existing between the landowner and the
20 licensee on January 11, 1979 are not renegotiable.

21 (2) This part does not prohibit the department from conveying,
22 leasing, or permitting the use of state land for a solid waste
23 disposal area or a resource recovery facility as provided by
24 applicable state law.

25 (3) **WHEN A DISPOSAL AREA THAT IS A COAL ASH IMPOUNDMENT IS**
26 **LICENSED UNDER THIS PART, AN INSTRUMENT THAT IMPOSES A RESTRICTIVE**
27 **COVENANT UPON THE LAND INVOLVED SHALL BE EXECUTED BY ALL OF THE**

1 OWNERS OF THE TRACT OF LAND UPON WHICH THE IMPOUNDMENT IS LOCATED
2 OR IS TO BE LOCATED AND THE DEPARTMENT. IF THE LAND INVOLVED IS
3 OWNED BY THIS STATE, THE STATE ADMINISTRATIVE BOARD SHALL EXECUTE
4 THE COVENANT ON BEHALF OF THIS STATE. THE INSTRUMENT IMPOSING THE
5 RESTRICTIVE COVENANT SHALL BE FILED FOR RECORD BY THE DEPARTMENT OR
6 A HEALTH OFFICER IN THE OFFICE OF THE REGISTER OF DEEDS OF THE
7 COUNTY, OR COUNTIES, IN WHICH THE DISPOSAL AREA IS LOCATED. THE
8 COVENANT SHALL STATE THAT THE LAND DESCRIBED IN THE COVENANT HAS
9 BEEN OR WILL BE USED AS A COAL ASH IMPOUNDMENT AND THAT NEITHER THE
10 PROPERTY OWNERS, THEIR SERVANTS, AGENTS, OR EMPLOYEES, NOR ANY OF
11 THEIR HEIRS, SUCCESSORS, LESSEES, OR ASSIGNS SHALL ENGAGE IN
12 FILLING, GRADING, EXCAVATING, DRILLING, OR MINING ON THE PROPERTY
13 DURING THE FIRST 50 YEARS FOLLOWING COMPLETION OF THE IMPOUNDMENT
14 WITHOUT AUTHORIZATION OF THE DEPARTMENT. IN GIVING AUTHORIZATION,
15 THE DEPARTMENT SHALL CONSIDER THE ORIGINAL DESIGN, TYPE OF
16 OPERATION, MATERIAL DEPOSITED, AND ANY REMOVAL OF THE MATERIALS AS
17 PART OF THE CLOSURE OF THE IMPOUNDMENT.

18 (4) AN INDUSTRIAL WASTE LANDFILL MAY ACCEPT INDUSTRIAL WASTE
19 OF DIFFERENT TYPES AND FROM DIFFERENT GENERATORS, BUT SHALL NOT
20 ACCEPT HAZARDOUS WASTE GENERATED BY CONDITIONALLY EXEMPT SMALL
21 QUANTITY GENERATORS.

22 (4) IF THE OWNER OR OPERATOR OF A COAL ASH LANDFILL OR COAL
23 ASH IMPOUNDMENT IS OBLIGATED TO PREPARE A RESPONSE ACTION PLAN, THE
24 OWNER OR OPERATOR SHALL COMPLY WITH R 299.4442 TO R 299.4445 OF THE

9 257.102(F) (1) AND (2).

10 (7) COAL ASH IMPOUNDMENTS OR COAL ASH LANDFILLS MAY BE CLOSED
11 AS A TYPE III LANDFILL PURSUANT TO THE APPLICABLE RULES OR BY
12 REMOVAL OF COAL ASH FROM THE IMPOUNDMENT AS DESCRIBED IN THIS PART.

13 (8) IF A COAL ASH IMPOUNDMENT IS CLOSED BY THE DATE THAT IS 2
14 YEARS AFTER THE EFFECTIVE DATE OF THE AMENDATORY ACT THAT ADDED
15 THIS SECTION AND THE DEPARTMENT ACCEPTS THE CERTIFICATION OF THE

21 (A) THE OWNER OR OPERATOR CERTIFIES COMPLIANCE WITH THE
22 REQUIREMENTS OF 40 CFR 257.102(C).

23 (B) THE OWNER OR OPERATOR CERTIFIES THAT TESTING CONFIRMS THAT

10 CONTRIBUTE TO A PERPETUAL CARE FUND, AND ANY CLAIM TO THE ASSURANCE
11 OR FUND BY THE DEPARTMENT IS TERMINATED AND RELEASED. THE
12 TERMINATION AND RELEASE DO NOT IMPAIR THE DEPARTMENT'S AUTHORITY TO
13 REQUIRE, WHETHER UPON COMPLETION OF CLOSURE UNDER SUBSECTION (9)(B)
14 OR SUBSEQUENTLY, FINANCIAL ASSURANCE FOR CORRECTIVE ACTION AS
15 PROVIDED UNDER THIS ACT.

16 SEC. 11519C. (1) IF ASSESSMENT MONITORING OF AN UNLINED COAL

7 DEPARTMENT APPROVAL, THE OWNER OR OPERATOR SHALL IMPLEMENT AND
8 DILIGENTLY PURSUE THE RESPONSE ACTION PLAN AND SHALL COMPLY WITH R
9 299.4443 TO 299.4445 OF THE PART 115 RULES.

10 (2) FOR PURPOSES OF THIS SECTION, "UNLINED COAL ASH
11 IMPOUNDMENT" MEANS A COAL ASH IMPOUNDMENT WITHOUT A LINER AS
12 DESCRIBED IN 40 CFR 257.70(B) OR ANOTHER CONSTRUCTION OR SYSTEM IN
13 PLACE THAT IS DETERMINED BY THE DEPARTMENT TO BE AS PROTECTIVE AS A
14 LINER AS DESCRIBED IN 40 CFR 257.70(B).

15 Sec. 11523. (1) The department shall not issue a license to
16 operate a disposal area unless the applicant has filed, as a part
17 of the application for a license, evidence of the following
18 financial assurance:

19 (a) Financial assurance established for a type III landfill or
20 a preexisting unit at a type II landfill and until April 9, 1997,
21 existing and new type II landfills shall be in the form of a bond
22 in an amount equal to \$20,000.00 per acre of licensed landfill
23 within the solid waste boundary. However, the amount of the bond
24 shall not be less than \$20,000.00 or more than \$1,000,000.00. Each
25 bond shall provide assurance for the maintenance of the finished
26 landfill site for a period of 30 years after the landfill or any
27 approved portion is completed. In addition to this bond, a

1 perpetual care fund shall be maintained under section 11525.

2 (b) Financial assurance for a type II landfill that is an
3 existing unit or a new unit shall be in an amount equal to the
4 cost, in current dollars, of hiring a third party, to conduct
5 closure, postclosure maintenance and monitoring, and if necessary,
6 corrective action. An application for a type II landfill that is an
7 existing unit or new unit shall demonstrate financial assurance in
8 accordance with section 11523a.

9 (C) FINANCIAL ASSURANCE ESTABLISHED FOR AN EXISTING COAL ASH
10 IMPOUNDMENT SHALL BE IN THE FORM OF A BOND IN AN AMOUNT EQUAL TO
11 \$20,000.00 PER ACRE WITHIN THE IMPOUNDMENT BOUNDARY. HOWEVER, THE
12 AMOUNT OF THE BOND SHALL NOT BE LESS THAN \$20,000.00 OR MORE THAN
13 \$1,000,000.00. THE BOND SHALL PROVIDE ASSURANCE FOR THE MAINTENANCE
14 OF THE FINISHED COAL ASH IMPOUNDMENT FOR A PERIOD OF 30 YEARS AFTER
15 THE COAL ASH IMPOUNDMENT OR ANY APPROVED PORTION IS COMPLETED. IN
16 ADDITION TO THE BOND, A PERPETUAL CARE FUND SHALL BE MAINTAINED
17 UNDER SECTION 11525. FOR APPLICATIONS FOR A LICENSE TO OPERATE
18 SUBMITTED TO THE DEPARTMENT AFTER THE DATE THAT IS 2 YEARS AFTER
19 THE EFFECTIVE DATE OF THE AMENDATORY ACT THAT ADDED SECTION 11511A,
20 AN APPLICANT THAT DEMONSTRATES THAT IT MEETS THE REQUIREMENTS OF R
21 299.9709 OF THE MICHIGAN ADMINISTRATIVE CODE MAY UTILIZE THE
22 FINANCIAL TEST UNDER THAT RULE FOR AN AMOUNT NOT EXCEEDING 95% OF
23 THE CLOSURE, POSTCLOSURE, AND CORRECTIVE ACTION COST ESTIMATE.

24 (D) ~~(e)~~—Financial assurance established for a solid waste
25 transfer facility, incinerator, processing plant, other solid waste
26 handling or disposal facility, or a combination of these utilized
27 in the disposal of solid waste shall be in the form of a bond in an

1 amount equal to 1/4 of 1% of the construction cost of the facility,
2 but shall not be less than \$4,000.00, and shall be continued in
3 effect for a period of 2 years after the disposal area is closed.

4 (2) The owner or operator of a landfill may post a cash bond
5 with the department instead of other bonding mechanisms to fulfill
6 the remaining financial assurance requirements of this section. An
7 owner or operator of a disposal area who elects to post cash as a
8 bond shall accrue interest on that bond at the annual rate of 6%,
9 to be accrued quarterly, except that the interest rate payable to
10 an owner or operator shall not exceed the rate of interest accrued
11 on the state common cash fund for the quarter in which an accrual
12 is determined. Interest shall be paid to the owner or operator upon
13 release of the bond by the department. Any interest greater than 6%
14 shall be deposited in the state treasury to the credit of the
15 general fund and shall be appropriated to the department to be used
16 by the department for administration of this part.

17 (3) An owner or operator of a disposal area that is not a
18 landfill who has accomplished closure in a manner approved by the
19 department and in accordance with this part and the rules
20 promulgated under this part, may request a 50% reduction in the
21 bond during the 2-year period after closure. At the end of the 2-
22 year period, the owner or operator may request that the department
23 terminate the bond. The department shall approve termination of the
24 bond within 60 days after the request is made if all waste and
25 waste residues have been removed from the disposal area and closure
26 is certified.

27 (4) The department may utilize a bond required under this

1 section for the closure and postclosure monitoring and maintenance
2 of a disposal area if the owner or operator fails to comply with
3 the closure and postclosure monitoring and maintenance requirements
4 of this part and the rules promulgated under this part to the
5 extent necessary to correct such violations. At least 7 days before
6 utilizing the bond, the department shall issue a notice of
7 violation or other order that alleges violation of this part or
8 rules promulgated under this part and provide an opportunity for a
9 hearing. This subsection does not apply to a perpetual care fund
10 bond.

11 (5) Under the terms of a surety bond, letter of credit,
12 insurance policy, or perpetual care fund bond, the issuing
13 institution shall notify both the department and the owner or
14 operator at least 120 days before the expiration date or any
15 cancellation of the bond. If the owner or operator does not extend
16 the effective date of the bond, or establish alternate financial
17 assurance within 90 days after receipt of an expiration or
18 cancellation notice from the issuing institution, all of the
19 following apply:

20 (a) The department may draw on the bond.

21 (b) In the case of a perpetual care fund bond, the issuing
22 institution shall deposit the proceeds into the standby trust or
23 escrow account unless the department agrees to the expiration or
24 cancellation of the perpetual care fund bond.

25 (6) The department shall not issue a construction permit or a
26 new license to operate a disposal area to an applicant that is the
27 subject of a bankruptcy action commenced under title 11 of the

1 United States Code, 11 USC 101 to 1532, or any other predecessor or
2 successor statute.

3 (7) A person required under this section to provide financial
4 assurance in the form of a bond for a landfill may request a
5 reduction in the bond based upon the amount of the perpetual care
6 fund established under section 11525. A person requesting a bond
7 reduction shall do so on a form consistent with this part and
8 provided by the department. The department shall grant this request
9 unless there are sufficient grounds for denial and those reasons
10 are provided in writing. The department shall grant or deny a
11 request for a reduction of the bond within 60 days after the
12 request is made. If the department grants a request for a reduced
13 bond, the department shall require a bond in an amount such that
14 for type III landfills, and type II landfills that are preexisting
15 units, the amount of the perpetual care fund plus the amount of the
16 reduced bond equals the maximum amount required in a perpetual care
17 fund in section 11525(2).

18 (8) The department shall release the bond required by this
19 section if the amount of the perpetual care fund exceeds the amount
20 of the financial assurance required under subsection (1).

21 (9) Prior to closure of a landfill, if money is disbursed from
22 the perpetual care fund, then the department may require a
23 corresponding increase in the amount of bonding required to be
24 provided if necessary to meet the requirements of this section.

25 (10) If an owner or operator of a disposal area fulfills the
26 financial assurance requirements of this part by obtaining a bond,
27 including, but not limited to, a perpetual care fund bond, and the

1 surety company, insurer, trustee, bank, or financial or other
2 institution that issued or holds the bond becomes the subject of a
3 bankruptcy action or has its authority to issue or hold the bond or
4 to act as an escrow agent or trustee suspended or revoked, the
5 owner or operator shall, within 60 days after receiving notice of
6 that event, establish alternate financial assurance under this
7 part.

8 Sec. 11523a. (1) Effective April 9, 1997, the department shall
9 not issue a license to operate a type II landfill unless the
10 applicant demonstrates that for any new unit or existing unit at
11 the facility, the combination of the perpetual care fund
12 established under section 11525, bonds, and the financial
13 capability of the applicant as evidenced by a financial test,
14 provides financial assurance in an amount not less than that
15 required by this section. An applicant may utilize a financial test
16 for an amount up to, but not exceeding, 70% of the closure,
17 postclosure, and corrective action cost estimate.

18 (2) An applicant may demonstrate compliance with this section
19 by submitting evidence, with a form consistent with this part and
20 provided by the department, that the applicant has financial
21 assurance for any existing unit or new unit in an amount equal to
22 or greater than the sum of the following standardized costs:

23 (a) A standard closure cost estimate. The standard closure
24 cost estimate shall be based upon the sum of the following costs in
25 1996 dollars, adjusted for inflation and partial closures, if any,
26 as specified in subsections (4) and (5):

27 (i) A base cost of \$20,000.00 per acre to construct a

1 compacted soil final cover using on-site material.

2 (ii) A supplemental cost of \$20,000.00 per acre, to install a
3 synthetic cover liner, if required by rules under this part.

4 (iii) A supplemental cost of \$5,000.00 per acre, if low
5 permeability soil must be transported from off-site to construct
6 the final cover or if a bentonite geocomposite liner is used
7 instead of low permeability soil in a composite cover.

8 (iv) A supplemental cost of \$5,000.00 per acre, to construct a
9 passive gas collection system in the final cover, unless an active
10 gas collection system has been installed at the facility.

11 (b) A standard postclosure cost estimate. The standard
12 postclosure cost estimate shall be based upon the sum of the
13 following costs, adjusted for inflation as specified in section
14 11525(2):

15 (i) A final cover maintenance cost of \$200.00 per acre per
16 year.

17 (ii) A leachate disposal cost of \$100.00 per acre per year.

18 (iii) A leachate transportation cost of \$1,000.00 per acre per
19 year, if leachate is required to be transported off-site for
20 treatment.

21 (iv) A groundwater monitoring cost of \$1,000.00 per monitoring
22 well per year.

23 (v) A gas monitoring cost of \$100.00 per monitoring point per
24 year, for monitoring points used to detect landfill gas at or
25 beyond the facility property boundary.

26 (c) The corrective action cost estimate, if any. The
27 corrective action cost estimate shall be a detailed written

1 estimate, in current dollars, of the cost of hiring a third party
2 to perform corrective action in accordance with this part.

3 (3) Instead of using some or all of the standardized costs
4 specified in subsection (2), an applicant may estimate the site
5 specific costs of closure or postclosure maintenance and
6 monitoring. A site specific cost estimate shall be a written
7 estimate, in current dollars, of the cost of hiring a third party
8 to perform the activity. For the purposes of this subsection, a
9 parent corporation or a subsidiary of the owner or operator is not
10 a third party. Site specific cost estimates shall be based on the
11 following:

12 (a) For closure, the cost to close the largest area of the
13 landfill ever requiring a final cover at any time during the active
14 life, when the extent and manner of its operation would make
15 closure the most expensive, in accordance with the approved closure
16 plan. The closure cost estimate may not incorporate any salvage
17 value that may be realized by the sale of structures, land,
18 equipment, or other assets associated with the facility at the time
19 of final closure.

20 (b) For postclosure, the cost to conduct postclosure
21 maintenance and monitoring in accordance with the approved
22 postclosure plan for the entire postclosure period.

23 (4) The owner or operator of a landfill subject to this
24 section shall, during the active life of the landfill and during
25 the postclosure care period, annually adjust the financial
26 assurance cost estimates and corresponding amount of financial
27 assurance for inflation. Cost estimates shall be adjusted for

1 inflation by multiplying the cost estimate by an inflation factor
2 derived from the most recent United States ~~department~~**DEPARTMENT** of
3 the ~~interior, bureau~~**INTERIOR, BUREAU** of ~~reclamation~~**RECLAMATION**
4 composite index published by the United States ~~department~~
5 **DEPARTMENT** of ~~commerce~~**COMMERCE** or another index that is more
6 representative of the costs of closure and postclosure monitoring
7 and maintenance as determined appropriate by the department. The
8 owner or operator shall document the adjustment on a form
9 consistent with this part as prepared by the department and shall
10 place the documentation in the operating record of the facility.

11 (5) The owner or operator of a landfill subject to this
12 section may request that the department authorize a reduction in
13 the approved cost estimates and corresponding financial assurance
14 for the landfill by submitting a form consistent with this part and
15 provided by the department certifying completion of any of the
16 following activities:

17 (a) Partial closure of the landfill. The current closure cost
18 estimate for partially closed portions of a landfill unit may be
19 reduced by 80%, if the maximum waste slope on the unclosed portions
20 of the unit does not exceed 25%. The percentage of the cost
21 estimate reduction approved by the department for the partially
22 closed portion shall be reduced 1% for every 1% increase in the
23 slope of waste over 25% in the active portion. An owner or operator
24 requesting a reduction in financial assurance for partial closure
25 shall enclose with the request a certification under the seal of a
26 licensed professional engineer that certifies both of the
27 following:

1 (i) That a portion of the licensed landfill unit has reached
2 final grades and has had a final cover installed in compliance with
3 the approved closure plan and rules promulgated under this part.

4 (ii) The maximum slope of waste in the active portion of the
5 landfill unit at the time of partial closure.

6 (b) Final closure of the landfill. An owner or operator
7 requesting a cost estimate reduction for final closure shall submit
8 a certification under the seal of a licensed professional engineer
9 that closure of that landfill unit has been fully completed in
10 accordance with the approved closure plan for the landfill. Within
11 60 days of receiving a certification under this subsection, the
12 department shall perform a consistency review of the submitted
13 certification and do 1 of the following:

14 (i) Approve the certification and notify the owner or operator
15 that he or she may reduce the closure cost estimate to zero.

16 (ii) Disapprove the certification and provide the owner or
17 operator with a detailed written statement of the reasons why the
18 department has determined that closure certification has not been
19 conducted in accordance with this part, the rules promulgated under
20 this part, or an approved closure plan.

21 (c) Postclosure maintenance and monitoring. The owner or
22 operator of a landfill unit who has completed final closure of the
23 unit may request a reduction in the postclosure cost estimate and
24 corresponding financial assurance for 1 year or more of postclosure
25 maintenance and monitoring if the landfill has been monitored and
26 maintained in accordance with the approved postclosure plan. The
27 department shall, within 60 days of receiving a cost estimate

1 reduction request grant written approval or issue a written denial
2 stating the reason for denial. The department shall grant the
3 request and the owner or operator may reduce the postclosure cost
4 estimate to reflect the number of years remaining in the
5 postclosure period unless the department denies the request and the
6 written denial states that the owner or operator has not performed
7 the specific tasks consistent with this part, rules promulgated
8 under this part, and an approved plan.

9 (6) The owner or operator of a landfill subject to this
10 section may request a reduction in the amount of one or more of the
11 financial assurance mechanisms in place. If the combined value of
12 the remaining financial assurance mechanisms equals the amount
13 required under this section, the department shall approve the
14 request.

15 (7) An owner or operator requesting that the department
16 approve a financial assurance reduction under subsection (5) or (6)
17 shall do so on a form consistent with this part and provided by the
18 department. The department shall grant written approval or, within
19 60 days of receiving a financial assurance reduction request, issue
20 a written denial stating the reason for the denial.

21 Sec. 11523b. (1) The owner or operator of a landfill **OR COAL**
22 **ASH IMPOUNDMENT** may establish a trust fund or escrow account to
23 fulfill the requirements of sections 11523 and 11523a. The trust
24 fund or escrow account shall be executed on a form provided by the
25 department.

26 (2) Payments into a trust fund or escrow account shall be made
27 annually over the term of the first operating license issued after

1 the effective date of this section. The first payment into a trust
2 fund or escrow account shall be made prior to licensure and shall
3 be at least equal to the portion of the financial assurance
4 requirement to be covered by the trust fund or escrow account
5 divided by the term of the operating license. Subsequent payments
6 shall be equal to the remaining financial assurance requirement
7 divided by the number of years remaining until the license expires.

8 (3) If the owner or operator of a landfill **OR COAL ASH**
9 **IMPOUNDMENT** establishes a trust fund or escrow account after having
10 used one or more alternate forms of financial assurance, the
11 initial payment into the trust fund or escrow account shall be at
12 least the amount the fund would contain if the fund were
13 established initially and annual payments made according to
14 subsection (2).

15 (4) All earnings and interest from a trust fund or escrow
16 account shall be credited to the fund or account. However, the
17 custodian may be compensated for reasonable fees and costs for his
18 or her responsibilities as custodian. The custodian shall ensure
19 the filing of all required tax returns for which the trust fund or
20 escrow account is liable and shall disburse funds from earnings to
21 pay lawfully due taxes owed by the trust fund or escrow account,
22 without permission of the department.

23 (5) The custodian shall annually, 30 days preceding the
24 anniversary date of establishment of the fund, furnish to the owner
25 or operator and to the department a statement confirming the value
26 of the fund or account as of the end of that month.

27 (6) The owner or operator may request that the department

1 authorize the release of funds from a trust fund or escrow account.
2 The department shall grant the request if the owner or operator
3 demonstrates that the value of the fund or account exceeds the
4 owner's or operator's financial assurance obligation. A payment or
5 disbursement from the fund or account shall not be made without the
6 prior written approval of the department.

7 (7) The owner or operator shall receive all interest or
8 earnings from a trust fund or escrow account upon its termination.

9 (8) ~~For purposes of~~ **AS USED IN** this section, ~~the term~~
10 "custodian" means the trustee of a trust fund or escrow agent of an
11 escrow account.

12 Sec. 11525. (1) The owner or operator of a landfill **OR COAL**
13 **ASH IMPOUNDMENT** shall establish and maintain a perpetual care fund
14 for a period of 30 years after final closure of the landfill **OR**
15 **COAL ASH IMPOUNDMENT** as specified in this section. A perpetual care
16 fund may be established as a trust, an escrow account, or a
17 perpetual care fund bond and may be used to demonstrate financial
18 assurance for type II **AND TYPE III** landfills **AND COAL ASH**
19 **IMPOUNDMENTS** under ~~section~~ **SECTIONS** 11523 and ~~section~~ 11523a.

20 (2) Except as otherwise provided in this section, the owner or
21 operator of a landfill shall increase the amount of his or her
22 perpetual care fund 75 cents for each ton or portion of a ton or 25
23 cents for each cubic yard or portion of a cubic yard of solid waste
24 that is disposed of in the landfill after June 17, 1990 until the
25 fund reaches the maximum required fund amount. As of July 1, 1996,
26 the maximum required fund amount **FOR A LANDFILL OR COAL ASH**
27 **IMPOUNDMENT** is \$1,156,000.00. This amount shall be annually

1 adjusted for inflation and rounded to the nearest thousand. The
 2 department shall adjust the maximum required fund amount for
 3 inflation annually by multiplying the amount by an inflation factor
 4 derived from the most recent ~~bureau~~ **UNITED STATES DEPARTMENT OF THE**
 5 **INTERIOR, BUREAU** of ~~reclamation~~ **RECLAMATION** composite index
 6 published by the United States ~~department~~ **DEPARTMENT** of ~~commerce~~
 7 **COMMERCE** or another index more representative of the costs of
 8 closure and postclosure monitoring and maintenance as determined
 9 appropriate by the department. Increases to the amount of a
 10 perpetual care fund required under this subsection shall be
 11 calculated based on solid waste disposed of in the landfill as of
 12 the end of the state fiscal year and shall be made within 30 days
 13 after the end of each state fiscal year.

14 (3) The owner or operator of a landfill **OR COAL ASH**
 15 **IMPOUNDMENT** that is used for the disposal of the following
 16 materials shall increase the amount of the perpetual care fund 7.5
 17 cents for each ton or cubic yard or portion of a ton or cubic yard
 18 of the following materials that are disposed of in the landfill
 19 ~~after June 17, 1990:~~ **OR COAL ASH IMPOUNDMENT AFTER THE EFFECTIVE**
 20 **DATE OF THE AMENDATORY ACT THAT ADDED SECTION 11511A UNTIL THE FUND**
 21 **REACHES THE MAXIMUM REQUIRED FUND AMOUNT UNDER SUBSECTION (2):**

22 (a) Coal ash, wood ash, or cement kiln dust that is disposed
 23 of in a landfill that is used only for the disposal of coal ash,
 24 wood ash, or cement kiln dust, or a combination of these materials,
 25 or that is permanently segregated in a landfill.

26 (b) Wastewater treatment sludge or sediments from wood pulp or
 27 paper producing industries that is disposed of in a landfill that

1 is used only for the disposal of wastewater treatment sludge and
2 sediments from wood pulp or paper producing industries, or that is
3 permanently segregated in a landfill.

4 (c) Foundry sand or other material that is approved by the
5 department for use as daily cover at an operating landfill, that is
6 disposed of in a landfill that is used only for the disposal of
7 foundry sand, or that is permanently segregated in a landfill.

8 (4) The owner or operator of a landfill that is used only for
9 the disposal of a mixture of 2 or more of the materials described
10 in subsection (3)(a) to (c) or in which a mixture of 2 or more of
11 these materials are permanently segregated shall increase the
12 amount of the perpetual care fund 7.5 cents for each ton or cubic
13 yard or portion of a ton or cubic yard of these materials that are
14 disposed of in the landfill after July 1, 1996.

15 (5) The amount of a perpetual care fund is not required to be
16 increased for materials that are regulated under part 631.

17 (6) The owner or operator of a landfill may increase the
18 amount of the perpetual care fund above the amount otherwise
19 required by this section at his or her discretion.

20 (7) The custodian of a perpetual care fund trust or escrow
21 account shall be a bank or other financial institution that has the
22 authority to act as a custodian and whose account operations are
23 regulated and examined by a federal or state agency. Until the
24 perpetual care fund trust or escrow account reaches the maximum
25 required fund amount, the custodian of a perpetual care fund trust
26 or escrow account shall credit any interest and earnings of the
27 perpetual care fund trust or escrow account to the perpetual care

1 fund trust or escrow account. After the perpetual care fund trust
2 or escrow account reaches the maximum required fund amount, any
3 interest and earnings shall be distributed as directed by the owner
4 or operator. The agreement governing the operation of the perpetual
5 care fund trust or escrow account shall be executed on a form
6 consistent with this part and provided by the department. The
7 custodian may be compensated from the fund for reasonable fees and
8 costs incurred for his or her responsibilities as custodian. The
9 custodian of a perpetual care fund trust or escrow account shall
10 make an accounting to the department within 30 days following the
11 close of each state fiscal year.

12 (8) The custodian of a perpetual care fund shall not disburse
13 any funds to the owner or operator of a landfill **OR COAL ASH**
14 **IMPOUNDMENT** for the purposes of the perpetual care fund except upon
15 the prior written approval of the department. However, the
16 custodian shall ensure the filing of all required tax returns for
17 which the perpetual care fund is liable and shall disburse funds to
18 pay lawfully due taxes owed by the perpetual care fund without
19 permission of the department. The owner or operator of the landfill
20 **OR COAL ASH IMPOUNDMENT** shall provide notice of requests for
21 disbursement and denials and approvals to the custodian of the
22 perpetual care fund. Requests for disbursement from a perpetual
23 care fund shall be submitted not more frequently than semiannually.
24 The owner or operator of a landfill **OR COAL ASH IMPOUNDMENT** may
25 request disbursement of funds from a perpetual care fund whenever
26 the amount of money in the fund exceeds the maximum required fund
27 amount. The department shall approve the disbursement if the total

1 amount of financial assurance maintained meets the requirements of
2 sections 11523 and 11523a. As used in this subsection, "maximum
3 required fund amount" means:

4 (a) For those landfills **OR COAL ASH IMPOUNDMENTS** containing
5 only those materials specified in subsection (3), an amount equal
6 to 1/2 of the maximum required fund amount specified in subsection
7 (2).

8 (b) For all other landfills, an amount equal to the maximum
9 required fund amount specified in subsection (2).

10 (9) If the owner or operator of a landfill **OR COAL ASH**
11 **IMPOUNDMENT** refuses or fails to conduct closure, postclosure
12 monitoring and maintenance, or corrective action as necessary to
13 protect the public health, safety, or welfare, or the environment
14 or fails to request the disbursement of money from a perpetual care
15 fund when necessary to protect the public health, safety, or
16 welfare, or the environment, or fails to pay the solid waste
17 management program administration fee or the surcharge required
18 under section 11525a, then the department may draw on the perpetual
19 care fund and may expend the money for closure, postclosure
20 monitoring and maintenance, and corrective action, as necessary.
21 The department may draw on a perpetual care fund for administrative
22 costs associated with actions taken under this subsection.

23 (10) Upon approval by the department of a request to terminate
24 financial assurance for a landfill **OR COAL ASH IMPOUNDMENT** under
25 section 11525b, any money in the perpetual care fund for that
26 landfill **OR COAL ASH IMPOUNDMENT** shall be disbursed by the
27 custodian to the owner of the landfill **OR COAL ASH IMPOUNDMENT**

1 unless a contract between the owner and the operator ~~of the~~
2 ~~landfill~~ provides otherwise.

3 (11) The owner of a landfill **OR COAL ASH IMPOUNDMENT** shall
4 provide notice to the custodian of the perpetual care fund for that
5 landfill **OR COAL ASH IMPOUNDMENT** if there is a change of ownership
6 of the landfill. The custodian shall maintain records of ownership
7 of a landfill **OR COAL ASH IMPOUNDMENT** during the period of
8 existence of the perpetual care fund.

9 (12) This section does not relieve an owner or operator of a
10 landfill **OR COAL ASH IMPOUNDMENT** of any liability that he or she
11 may have under this part or as otherwise provided by law.

12 (13) This section does not create a cause of action at law or
13 in equity against a custodian of a perpetual care fund other than
14 for errors or omissions related to investments, accountings,
15 disbursements, filings of required tax returns, and maintenance of
16 records required by this section or the applicable perpetual care
17 fund.

18 (14) As used in this section, "custodian" means the trustee or
19 escrow agent of any of the following:

20 (a) A perpetual care fund that is established as a trust or
21 escrow account.

22 (b) A standby trust or escrow account for a perpetual care
23 fund bond.

24 (15) A perpetual care fund that is established as a trust or
25 escrow account may be replaced with a perpetual care fund that is
26 established as a perpetual care fund bond that complies with this
27 section. Upon such replacement, the director shall authorize the

1 custodian of the trust or escrow account to disburse the money in
2 the trust or escrow account to the owner of the landfill **OR COAL**
3 **ASH IMPOUNDMENT** unless a contract between the owner and operator of
4 ~~the landfill~~ specifies otherwise.

5 (16) An owner or operator of a landfill **OR COAL ASH**
6 **IMPOUNDMENT** who uses a perpetual care fund bond to satisfy the
7 requirements of this section shall also establish a standby trust
8 or escrow account. All payments made under the terms of the
9 perpetual care fund bond shall be deposited by the custodian
10 directly into the standby trust or escrow account in accordance
11 with instructions from the director. The standby trust or escrow
12 account must meet the requirements for a trust or escrow account
13 established as a perpetual care fund under subsection (1), except
14 that until the standby trust or escrow account is funded pursuant
15 to the requirements of this subsection, the following are not
16 required:

17 (a) Payments into the standby trust or escrow account as
18 specified in subsection (2).

19 (b) Annual accounting valuations as required in subsection
20 (7).

21 Sec. 11525a. (1) The owner or operator of a landfill **OR COAL**
22 **ASH IMPOUNDMENT** shall pay a surcharge as follows:

23 (a) ~~Except as provided in subdivision (b),~~ **FOR A LANDFILL OR**
24 **COAL ASH IMPOUNDMENT THAT IS NOT A CAPTIVE FACILITY**, 12 cents for
25 each cubic yard or portion of a cubic yard of solid waste or
26 municipal solid waste incinerator ash that is disposed of in the
27 landfill **OR COAL ASH IMPOUNDMENT** before October 1, 2019.

1 (b) For ~~A~~ type III ~~landfills~~ **LANDFILL OR COAL ASH IMPOUNDMENT**
2 that ~~are~~ **IS A** captive facilities, **FACILITY**, the following annual
3 amounts:

4 (i) For a captive facility that receives 100,000 or more cubic
5 yards of waste, \$3,000.00.

6 (ii) For a captive facility that receives 75,000 or more but
7 less than 100,000 cubic yards of waste, \$2,500.00.

8 (iii) For a captive facility that receives 50,000 or more but
9 less than 75,000 cubic yards of waste, \$2,000.00.

10 (iv) For a captive facility that receives 25,000 or more but
11 less than 50,000 cubic yards of waste, \$1,000.00.

12 (v) For a captive facility that receives less than 25,000
13 cubic yards of waste, \$500.00.

14 (2) The owner or operator of a landfill **OR COAL ASH**
15 **IMPOUNDMENT THAT IS NOT A CAPTIVE FACILITY** shall pay the surcharge
16 under subsection (1) (a) within 30 days after the end of each
17 quarter of the state fiscal year. The owner or operator of a type
18 III landfill **OR COAL ASH IMPOUNDMENT** that is a captive facility
19 shall pay the surcharge under subsection (1) (b) by January 31 of
20 each year.

21 (3) The owner or operator of a landfill **OR COAL ASH**
22 **IMPOUNDMENT** who is required to pay the surcharge under subsection
23 (1) shall pass through and collect the surcharge from any person
24 who generated the solid waste or who arranged for its delivery to
25 the solid waste hauler or transfer facility notwithstanding the
26 provisions of any contract or agreement to the contrary or the
27 absence of any contract or agreement.

1 (4) Surcharges collected under this section shall be forwarded
2 to the state treasurer for deposit in the solid waste staff account
3 of the solid waste management fund established in section 11550.

4 ~~(5) As used in this section, "captive facility" means a~~
5 ~~landfill that accepts for disposal only nonhazardous industrial~~
6 ~~waste generated only by the owner of the landfill or a nonhazardous~~
7 ~~industrial waste landfill that is described in section 11525(3).~~

8 Sec. 11525b. (1) The owner or operator of a disposal area
9 shall provide continuous financial assurance coverage until
10 released from these requirements by the department under the
11 provisions of this part.

12 (2) The owner or operator of a landfill **OR COAL ASH**
13 **IMPOUNDMENT** who has completed postclosure maintenance and
14 monitoring ~~of the landfill~~ in accordance with this part, rules
15 promulgated under this part, and approved postclosure plan may
16 request that financial assurance required by sections 11523 and
17 11523a be terminated. A person requesting termination of bonding
18 and financial assurance shall submit to the department a statement
19 that the landfill **OR COAL ASH IMPOUNDMENT** has been monitored and
20 maintained in accordance with this part, rules promulgated under
21 this part, and the approved postclosure plan for the postclosure
22 period specified in section 11523 and shall certify that the
23 landfill **OR COAL ASH IMPOUNDMENT** is not subject to corrective
24 action under section 11515. Within 60 days of receiving a statement
25 under this subsection, the department shall perform a consistency
26 review of the submitted statement and do 1 of the following:

27 (a) Approve the statement, notify the owner or operator that

1 he or she is no longer required to maintain financial assurance,
2 return or release all financial assurance mechanisms, and, if the
3 perpetual care fund is established as a trust or escrow account,
4 notify the custodian of the perpetual care fund that money from the
5 fund shall be disbursed as provided in section 11525(10).

6 (b) Disapprove the statement and provide the owner or operator
7 with a detailed written statement of the reasons why the department
8 has determined that postclosure maintenance and monitoring and
9 corrective action, if any, have not been conducted in accordance
10 with this part, the rules promulgated under this part, or an
11 approved postclosure plan.

12 Sec. 11528. (1) A solid waste transporting unit used for
13 garbage, industrial or domestic sludges, or other moisture laden
14 materials not specifically covered by part 121 shall be watertight
15 and constructed, maintained, and operated to prevent littering.
16 Solid waste transporting units used for hauling other solid waste
17 shall be designed and operated to prevent littering or any other
18 nuisance.

19 (2) A solid waste hauler who violates this part or the rules
20 promulgated under this part is subject to the penalties provided in
21 this part.

22 (3) The department, a health officer, or a law enforcement
23 officer may order a solid waste transporting unit out of service if
24 the unit does not ~~satisfy~~**COMPLY WITH** the requirements of this part
25 or the rules promulgated under this part. Continued use of a solid
26 waste transporting unit ordered out of service is a violation of
27 this part.

1 Sec. 11538. (1) Not later than September 11, 1979, the
2 director shall promulgate rules for the development, form, and
3 submission of initial solid waste management plans. The rules shall
4 require all of the following:

5 (a) The establishment of goals and objectives for prevention
6 of adverse effects on the public health and on the environment
7 resulting from improper solid waste collection, processing, or
8 disposal including protection of surface and groundwater quality,
9 air quality, and the land.

10 (b) An evaluation of waste problems by type and volume,
11 including residential and commercial solid waste, hazardous waste,
12 industrial sludges, pretreatment residues, municipal sewage sludge,
13 air pollution control residue, and other wastes from industrial or
14 municipal sources.

15 (c) An evaluation and selection of technically and
16 economically feasible solid waste management options, which may
17 include sanitary landfill, resource recovery systems, resource
18 conservation, or a combination of options.

19 (d) An inventory and description of all existing facilities
20 where solid waste is being treated, processed, or disposed of,
21 including a summary of the deficiencies, if any, of the facilities
22 in meeting current solid waste management needs.

23 (e) The encouragement and documentation as part of the solid
24 waste management plan, of all opportunities for participation and
25 involvement of the public, all affected agencies and parties, and
26 the private sector.

27 (f) That the solid waste management plan contain enforceable

1 mechanisms for implementing the plan, including identification of
2 the municipalities within the county responsible for the
3 enforcement and may contain a mechanism for the county and those
4 municipalities to assist the department and the state police in
5 implementing and conducting the inspection program established in
6 section 11526(2) and (3). This subdivision does not preclude the
7 private sector's participation in providing solid waste management
8 services consistent with the solid waste management plan for the
9 county.

10 (g) Current and projected population densities of each county
11 and identification of population centers and centers of solid waste
12 generation, including industrial wastes.

13 (h) That the solid waste management plan area has, and will
14 have during the plan period, access to a sufficient amount of
15 available and suitable land, accessible to transportation media, to
16 accommodate the development and operation of solid waste disposal
17 areas, or resource recovery facilities provided for in the plan.

18 (i) That the solid waste disposal areas or resource recovery
19 facilities provided for in the solid waste management plan are
20 capable of being developed and operated in compliance with state
21 law and rules of the department pertaining to protection of the
22 public health and the environment, considering the available land
23 in the plan area, and the technical feasibility of, and economic
24 costs associated with, the facilities.

25 (j) A timetable or schedule for implementing the solid waste
26 management plan.

27 (2) Each solid waste management plan shall identify specific

1 sites for solid waste disposal areas for a 5-year period after
2 approval of a plan or plan update. In calculating disposal need
3 requirements to measure compliance with this section, only those
4 existing waste stream volume reduction levels achieved through
5 source reduction, reuse, composting, recycling, or incineration, or
6 any combination of these reduction devices, that can currently be
7 demonstrated or that can be reasonably expected to be achieved
8 through currently active implementation efforts for proposed volume
9 reduction projects, may be assumed by the planning entity. In
10 addition, if the solid waste management plan does not also identify
11 specific sites for solid waste disposal areas for the remaining
12 portion of the entire planning period required by this part after
13 approval of a plan or plan update, the solid waste management plan
14 shall include an interim siting mechanism and an annual
15 certification process as described in subsections ~~(3)~~-(4) and ~~(4)~~-
16 (5). In calculating the capacity of identified disposal areas to
17 determine if disposal needs are met for the entire required
18 planning period, full achievement of the solid waste management
19 plan's volume reduction goals may be assumed by the planning entity
20 if the plan identifies a detailed programmatic approach to
21 achieving these goals. If a siting mechanism is not included, and
22 disposal capacity falls to less than 5 years of capacity, a county
23 shall amend the solid waste management plan for that county to
24 resolve the shortfall.

25 (3) AN EXISTING CAPTIVE TYPE III COAL ASH LANDFILL OR EXISTING
26 CAPTIVE COAL ASH IMPOUNDMENT, OR BOTH, IS CONSIDERED CONSISTENT
27 WITH AND INCLUDED IN THE SOLID WASTE MANAGEMENT PLAN FOR THE COUNTY

1 OR REGION IN WHICH THE DISPOSAL AREA IS LOCATED IF THE DISPOSAL
2 AREA CONTINUES TO ACCEPT WASTE GENERATED ONLY BY THE OWNER OF THE
3 DISPOSAL AREA AND MEETS ANY OF THE FOLLOWING REQUIREMENTS:

4 (A) WAS ISSUED A CONSTRUCTION PERMIT AND LICENSED FOR
5 OPERATION UNDER THIS PART.

6 (B) MET LOCAL LAND USE LAW REQUIREMENTS WHEN INITIALLY SITED
7 OR CONSTRUCTED.

8 (4) ~~(3)~~—An interim siting mechanism shall include both a
9 process and a set of minimum siting criteria, both of which are not
10 subject to interpretation or discretionary acts by the planning
11 entity, and which if met by an applicant submitting a disposal area
12 proposal, will guarantee a finding of consistency with the plan.
13 The interim siting mechanism shall be operative upon the call of
14 the board of commissioners or shall automatically be operative
15 whenever the annual certification process shows that available
16 disposal capacity will provide for less than 66 months of disposal
17 needs. In the latter event, applications for a finding of
18 consistency from the proposers of disposal area capacity will be
19 received by the planning agency commencing on January 1 following
20 completion of the annual certification process. Once operative, an
21 interim siting mechanism will remain operative for at least 90 days
22 or until more than 66 months of disposal capacity is once again
23 available, either by the approval of a request for consistency or
24 by the adoption of a new annual certification process which
25 concludes that more than 66 months of disposal capacity is
26 available.

27 (5) ~~(4)~~—An annual certification process shall be concluded by

1 June 30 of each year, commencing on the first June 30 which is more
2 than 12 months after the department's approval of the solid waste
3 management plan or plan update. The certification process will
4 examine the remaining disposal area capacity available for solid
5 wastes generated within the planning area. In calculating disposal
6 need requirements to measure compliance with this section, only
7 those existing waste stream volume reduction levels achieved
8 through source reduction, reuse, composting, recycling, or
9 incineration, or any combination of these reduction devices, that
10 can currently be demonstrated or that can be reasonably expected to
11 be achieved through currently active implementation efforts for
12 proposed volume reduction projects, may be assumed. The annual
13 certification of disposal capacity shall be approved by the board
14 of commissioners. Failure to approve an annual certification by
15 June 30 is equivalent to a finding that less than a sufficient
16 amount of capacity is available and the interim siting mechanism
17 will then be operative on the first day of the following January.
18 As part of the department's responsibility to act on construction
19 permit applications, the department has final decision authority to
20 approve or disapprove capacity certifications and to determine
21 consistency of a proposed disposal area with the solid waste
22 management plan.

23 (6) ~~(5)~~—A board of commissioners may adopt a new certification
24 of disposal capacity at any time. A new certification of disposal
25 capacity shall supersede all previous certifications, and become
26 effective 30 days after adoption by the board of commissioners and
27 remain in effect until subsequent certifications are adopted.

1 (7) ~~(6)~~—In order for a disposal area to serve the disposal
2 needs of another county, state, or country, the service, including
3 the disposal of municipal solid waste incinerator ash, must be
4 explicitly authorized in the approved solid waste management plan
5 of the receiving county. With regard to intercounty service within
6 Michigan, the service must also be explicitly authorized in the
7 solid waste management plan of the exporting county.

8 (8) ~~(7)~~—A person shall not dispose of, store, or transport
9 solid waste in this state unless the person complies with the
10 requirements of this part.

11 (9) ~~(8)~~—An ordinance, law, rule, regulation, policy, or
12 practice of a municipality, county, or governmental authority
13 created by statute, which prohibits or regulates the location or
14 development of a solid waste disposal area, and which is not part
15 of or not consistent with the approved solid waste management plan
16 for the county, shall be considered in conflict with this part and
17 shall not be enforceable.

18 Sec. 11539. (1) The director shall not approve a plan update
19 unless:

20 (a) The plan contains an analysis or evaluation of the best
21 available information applicable to the plan area in regard to
22 recyclable materials and all of the following:

23 (i) The kind and volume of material in the plan area's waste
24 stream that may be recycled or composted.

25 (ii) How various factors do or may affect a recycling and
26 composting program in the plan area. Factors shall include an
27 evaluation of the existing solid waste collection system; materials

1 market; transportation networks; local composting and recycling
2 support groups, or both; institutional arrangements; the population
3 in the plan area; and other pertinent factors.

4 (iii) An identification of impediments to implementing a
5 recycling and composting program and recommended strategies for
6 removing or minimizing impediments.

7 (iv) How recycling and composting and other processing or
8 disposal methods could complement each other and an examination of
9 the feasibility of excluding site separated material and source
10 separated material from other processing or disposal methods.

11 (v) Identification and quantification of environmental,
12 economic, and other benefits that could result from the
13 implementation of a recycling and composting program.

14 (vi) The feasibility of source separation of materials that
15 contain potentially hazardous components at disposal areas. This
16 subparagraph applies only to plan updates that are due after
17 January 31, 1989.

18 (b) The plan either provides for recycling and composting
19 recyclable materials from the plan area's waste stream or
20 establishes that recycling and composting are not necessary or
21 feasible or is only necessary or feasible to a limited extent.

22 (c) A plan that proposes a recycling or composting program, or
23 both, details the major features of that program, including all of
24 the following:

25 (i) The kinds and volumes of recyclable materials that will be
26 recycled or composted.

27 (ii) Collection methods.

1 (iii) Measures that will ensure collection such as ordinances
2 or cooperative arrangements, or both.

3 (iv) Ordinances or regulations affecting the program.

4 (v) The role of counties and municipalities in implementing
5 the plan.

6 (vi) The involvement of existing recycling interests, solid
7 waste haulers, and the community.

8 (vii) Anticipated costs.

9 (viii) On-going program financing.

10 (ix) Equipment selection.

11 (x) Public and private sector involvement.

12 (xi) Site availability and selection.

13 (xii) Operating parameters such as pH and heat range.

14 (d) The plan includes an evaluation of how the planning entity
15 is meeting the state's waste reduction and recycling goals as
16 established pursuant to section 11541(4).

17 **(2) A DISPOSAL AREA PERMITTED, LICENSED, OR OTHERWISE IN**
18 **EXISTENCE ON THE DATE OF APPROVAL OF THE SOLID WASTE MANAGEMENT**
19 **PLAN FOR THE PLANNING AREA WHERE THE DISPOSAL AREA IS LOCATED SHALL**
20 **BE CONSIDERED TO BE CONSISTENT WITH THE PLAN AND INCLUDED IN THE**
21 **PLAN.**

22 (3) ~~(2)~~The director may promulgate rules as may be necessary
23 to implement this section.

24 Sec. 11542. (1) Except as provided in subsection (5) and
25 except for municipal solid waste incinerator ash that is described
26 and used as provided in section 11506(6)(h), municipal solid waste
27 incinerator ash shall be disposed of in 1 of the following:

1 (a) A landfill that meets all of the following requirements:

2 (i) The landfill is in compliance with this part and the rules
3 promulgated under this part.

4 (ii) The landfill is used exclusively for the disposal of
5 municipal solid waste incinerator ash.

6 (iii) The landfill design includes all of the following in
7 descending order according to their placement in the landfill:

8 (A) A leachate collection system.

9 (B) A synthetic liner at least 60 mils thick.

10 (C) A compacted clay liner of 5 feet or more with a maximum
11 hydraulic conductivity of 1×10^{-7} centimeters per second.

12 (D) A leak detection and leachate collection system.

13 (E) A compacted clay liner at least 3 feet thick with a
14 maximum hydraulic conductivity of 1×10^{-7} centimeters per second
15 or a synthetic liner at least 40 mils thick.

16 (b) A landfill that meets all of the following requirements:

17 (i) The landfill is in compliance with this part and the rules
18 promulgated under this part.

19 (ii) The landfill is used exclusively for the disposal of
20 municipal solid waste incinerator ash.

21 (iii) The landfill design includes all of the following in
22 descending order according to their placement in the landfill:

23 (A) A leachate collection system.

24 (B) A composite liner, as defined in R 299.4102 of the

25 ~~Michigan administrative code.~~ **PART 115 RULES.**

26 (C) A leak detection and leachate collection system.

27 (D) A second composite liner.

1 (iv) If contaminants that may threaten the public health,
2 safety, or welfare, or the environment are found in the leachate
3 collection system described in subparagraph (iii) (C), the owner or
4 operator of the landfill shall determine the source and nature of
5 the contaminants and make repairs, to the extent practicable, that
6 will prevent the contaminants from entering the leachate collection
7 system. If the department determines that the source of the
8 contaminants is caused by a design failure of the landfill, the
9 department, notwithstanding an approved construction permit or
10 operating license, may require landfill cells at that landfill that
11 will be used for the disposal of municipal solid waste incinerator
12 ash, which are under construction or will be constructed in the
13 future at the landfill, to be constructed in conformance with
14 improved design standards approved by the department. However, this
15 subparagraph does not require the removal of liners or leak
16 detection and leachate collection systems that are already in place
17 in a landfill cell under construction.

18 (c) A landfill that is a monitorable unit, as defined in R
19 299.4104 of the ~~Michigan administrative code~~, **PART 115 RULES**, and
20 that meets all of the following requirements:

21 (i) The landfill is in compliance with this part and the rules
22 promulgated under this part.

23 (ii) The landfill is used exclusively for the disposal of
24 municipal solid waste incinerator ash.

25 (iii) The landfill design includes all of the following in
26 descending order according to their placement in the landfill:

27 (A) A leachate collection system.

1 (B) A synthetic liner at least 60 mils thick.

2 (C) Immediately below the synthetic liner, either 2 feet of
3 compacted clay with a maximum hydraulic conductivity of 1×10^{-7}
4 centimeters per second or a bentonite geocomposite liner, as
5 specified in R 299.4914 of the ~~Michigan administrative code~~. **PART**
6 **115 RULES**.

7 (D) At least 10 feet of either natural or compacted clay with
8 a maximum hydraulic conductivity of 1×10^{-7} centimeters per
9 second, or equivalent.

10 (d) A landfill with a design approved by the department that
11 will prevent the migration of any hazardous constituent into the
12 groundwater or surface water at least as effectively as the design
13 requirements of subdivisions (a) to (c).

14 (e) A type II landfill, as described in R 299.4105 of the
15 ~~Michigan administrative code~~, **PART 115 RULES** if both of the
16 following conditions apply:

17 (i) The ash was generated by a municipal solid waste
18 incinerator that is designed to burn at a temperature in excess of
19 2500 degrees Fahrenheit.

20 (ii) The ash from any individual municipal solid waste
21 incinerator is disposed of pursuant to this subdivision for a
22 period not to exceed 60 days.

23 (2) Except as provided in subsection (3), a landfill that is
24 constructed pursuant to the design described in subsection (1)
25 shall be capped following its closure by all of the following in
26 descending order:

27 (a) Six inches of top soil with a vegetative cover.

1 (b) Two feet of soil to protect against animal burrowing,
2 temperature, erosion, and rooted vegetation.

3 (c) An infiltration collection system.

4 (d) A synthetic liner at least 30 mils thick.

5 (e) Two feet of compacted clay with a maximum hydraulic
6 conductivity of 1×10^{-7} centimeters per second.

7 (3) A landfill that receives municipal solid waste incinerator
8 ash under this section may be capped with a design approved by the
9 department that will prevent the migration of any hazardous
10 constituent into the groundwater or surface water at least as
11 effectively as the design requirements of subsection (2).

12 (4) If leachate is collected from a landfill under this
13 section, the leachate shall be monitored and tested in accordance
14 with this part and the rules promulgated under this part.

15 (5) As an alternative to disposal described in subsection (1),
16 the owner or operator of a municipal solid waste incinerator may
17 process municipal solid waste incinerator ash through mechanical or
18 chemical methods, or both, to substantially diminish the toxicity
19 of the ash or its constituents or limit the leachability of the ash
20 or its constituents to minimize threats to human health and the
21 environment, if processing is performed on the site of the
22 municipal solid waste incinerator or at the site of a landfill
23 described in subsection (1), if the process has been approved by
24 the department as provided by rule, and if the ash is tested after
25 processing in accordance with a protocol approved by the department
26 as provided by rule. The department shall approve the process and
27 testing protocol under this subsection only if the process and

1 testing protocol will protect human health and the environment. In
2 making this determination, the department shall consider all
3 potential pathways of human and environmental exposure, including
4 both short-term and long-term, to constituents of the ash that may
5 be released during the reuse or recycling of the ash. The
6 department shall consider requiring methods to determine the
7 leaching, total chemical analysis, respirability, and toxicity of
8 reused or recycled ash. A leaching procedure shall include testing
9 under both acidic and native conditions. If municipal solid waste
10 incinerator ash is processed in accordance with the requirements of
11 this subsection and the processed ash satisfies the testing
12 protocol approved by the department as provided by rule, the ash
13 may be disposed of in a municipal solid waste landfill, as defined
14 by R 299.4104 of the ~~Michigan administrative code~~, **PART 115 RULES**,
15 licensed under this part or may be used in any manner approved by
16 the department. If municipal solid waste incinerator ash is
17 processed as provided in this subsection, but does not ~~satisfy~~
18 **COMPLY WITH** the testing protocol approved by the department as
19 provided by rule, the ash shall be disposed of in accordance with
20 subsection (1).

21 (6) The disposal of municipal solid waste incinerator ash
22 within a landfill that is in compliance with subsection (1) does
23 not constitute a new proposal for which a new construction permit
24 is required under section 11509, if a construction permit has
25 previously been issued under section 11509 for the landfill and the
26 owner or operator of the landfill submits 6 copies of an operating
27 license amendment application to the department for approval

1 pursuant to part 13. The operating license amendment application
2 shall include revised plans and specifications for all facility
3 modifications including a leachate disposal plan, an erosion
4 control plan, and a dust control plan which shall be part of the
5 operating license amendment. The dust control plan shall contain
6 sufficient detail to ensure that dust emissions are controlled by
7 available control technologies that reduce dust emissions by a
8 reasonably achievable amount to the extent necessary to protect
9 human health and the environment. The dust control plan shall
10 provide for the ash to be wet during all times that the ash is
11 exposed to the atmosphere at the landfill or otherwise to be
12 covered by daily cover material; for dust emissions to be
13 controlled during dumping, grading, loading, and bulk transporting
14 of the ash at the landfill; and for dust emissions from access
15 roads within the landfill to be controlled. With the exception of a
16 landfill that is in existence on June 12, 1989 that the department
17 determines is otherwise in compliance with this section, the owner
18 or operator of the landfill shall obtain the operating license
19 amendment prior to initiating construction. Prior to operation, the
20 owner or operator of a landfill shall submit to the department
21 certification from a licensed professional engineer that the
22 landfill has been constructed in accordance with the approved plan
23 and specifications. When the copies are submitted to the
24 department, the owner or operator of the landfill shall send a copy
25 of the operating license amendment application to the municipality
26 where the landfill is located. At least 30 days prior to making a
27 final decision on the operating license amendment, the department

1 shall hold at least 1 public meeting in the vicinity of the
2 landfill to receive public comments. Prior to a public meeting, the
3 department shall publish notice of the meeting in a newspaper
4 serving the local area.

5 (7) The owner or operator of a municipal solid waste
6 incinerator or a disposal area that receives municipal solid waste
7 incinerator ash shall allow the department access to the facility
8 for the purpose of supervising the collection of samples or
9 obtaining samples of ash to test or to monitor air quality at the
10 facility.

11 (8) As used in subsection (1), "landfill" means a landfill or
12 a specific portion of a landfill.

22 **UPON APPROPRIATION**, only for the purpose of conducting the
23 following activities at disposal areas which are or have been
24 licensed under this part:

25 (a) Postclosure maintenance and monitoring at a disposal area
26 where the owner or operator is no longer required to do so.

27 (b) To conduct closure, or postclosure maintenance and

1 monitoring and corrective action if necessary, at a disposal area
2 where the owner or operator has failed to do so. Money shall be
3 expended from the account only after funds from any perpetual care
4 fund or other financial assurance mechanisms held by the owner or
5 operator have been expended and the department has used reasonable
6 efforts to obtain funding from other sources.
