

**SUBSTITUTE FOR
HOUSE BILL NO. 4252**

A bill to amend 1993 PA 354, entitled
"Railroad code of 1993,"
by amending section 315 (MCL 462.315), as amended by 2012 PA 421.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Sec. 315. (1) The department, by order, in accordance with
2 section 301, may prescribe active traffic control devices to warn
3 of the approach of trains about to cross a street or highway at
4 public railroad grade crossings consisting of signals with signs,
5 circuitry, or crossing gates and other appurtenances as depicted in
6 the Michigan manual ~~of~~**on** uniform traffic control devices. A
7 determination ~~shall~~**must** detail the number, type, and location of
8 signals with signs, circuitry, or gates and appurtenances, ~~which,~~
9 ~~however, shall~~**that must** conform as closely as possible with

1 generally recognized national standards.

2 (2) Except as otherwise provided for in this act, the cost of
3 any installation, alteration, or modernization of active traffic
4 control devices ~~shall~~**must** be at equal expense of the railroad and
5 road authority.

6 (3) After initial installation, all active traffic control
7 devices, circuitry, and appurtenances at crossings ~~shall~~**must** be
8 maintained, enhanced, renewed, and replaced by the railroad at its
9 own expense, except that the road authority shall pay, ~~\$1,271.00~~
10 **subject to the increase described in this subsection, \$1,427.00** for
11 flashing signals on a single track, ~~\$1,978.00~~**\$2,867.00** for
12 flashing signals and gates on a single track, ~~\$1,481.00~~**\$2,105.00**
13 for flashing signals with cantilever arm on a single track,
14 ~~\$2,389.00~~**\$3,239.00** for flashing signals with cantilever arm with
15 gates on a single track, ~~\$2,257.00~~**\$3,394.00** for flashing signals
16 and gates on multiple tracks, ~~\$2,398.00~~**\$4,352.00** for flashing
17 signals with cantilever arms and gates on a multiple track,
18 ~~\$1,269.00~~**\$1,698.00** for flashing signals on a multiple track, and
19 ~~\$1,375.00~~**\$2,167.00** for flashing signals with cantilever arms on a
20 multiple track annually for maintenance to the railroad for each
21 crossing with active traffic control devices not covered by
22 existing or future railroad-road authority agreements. The railroad
23 shall furnish standard equipment uniform for all railroads at a
24 cost and installation basis consistent for all railroads. ~~By~~
25 ~~January 1, 2010 and every 10 years after 2010, the department shall~~
26 ~~complete a study to determine the cost of maintenance of active~~
27 ~~traffic control devices and shall forward a copy of the study to~~
28 ~~the members of the house and senate committees that consider~~
29 ~~railroad legislation. The department shall consult with the~~

1 ~~railroad and the local road authority representatives when~~
2 ~~completing the study to determine the cost of maintenance of active~~
3 ~~traffic control devices.~~**Beginning January 1, 2024, and on January 1**
4 **of each even-numbered year after 2024, the amounts a road authority**
5 **must pay under this subsection are increased by 6.64%.**

6 (4) Standard active railroad-highway traffic control devices
7 consisting of side of street flashing light signals with or without
8 half-roadway gates and cantilevers ~~shall~~**must** include the railroad
9 crossing (crossbuck) sign, "stop on red signal" sign, and number of
10 tracks sign located, designed, and maintained on the signal support
11 as prescribed by the Michigan manual ~~of~~**on** uniform traffic control
12 devices. The railroad shall perform actual installation and
13 maintenance of these signs. The railroad shall also install, renew,
14 and maintain any signs placed on cantilevered signal supports.
15 ~~Whenever~~**If** active traffic control devices are installed at any
16 crossing, ~~they shall~~**those active traffic control devices must** be
17 so arranged that for every train or switching movement over the
18 grade crossing, the active traffic control ~~device shall be in~~
19 ~~operation~~**devices operate** for a period of not less than 20 seconds
20 or more than 60 seconds in advance of the train movement reaching
21 the nearest established curb line or highway shoulder and the
22 devices ~~shall~~**must** continue to operate until the train movement has
23 passed the established curb line or shoulder on the far side of the
24 highway.

25 (5) The department may order a railroad, at the railroad's
26 expense, to stop and flag a crossing for normal train service or
27 when active traffic control devices may become inoperable.

28 Enacting section 1. This amendatory act takes effect July 1,
29 2022.
