THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

- 1** Sec. 3104. (1) The department is designated the state agency
2 to cooperate and negotiate with other governments, governmental
3 units, and governmental agencies in matters concerning the water

1 resources of ~~the~~**this** state, including, but not limited to, flood
2 control, beach erosion control, water quality control planning,
3 development, and management, and the control of aquatic nuisance
4 species. The department shall have control over the alterations of
5 natural or present watercourses of all rivers and streams in this
6 state to ensure that the channels and the portions of the
7 floodplains that are the floodways are not inhabited and are kept
8 free and clear of interference or obstruction that will cause any
9 undue restriction of the capacity of the floodway. The department
10 may take steps as may be necessary to take advantage of any act of
11 congress that may be of assistance in carrying out the purposes of
12 this part, including the water resources planning act, 42 USC 1962
13 to 1962d-3, and the federal water pollution control act, 33 USC
14 1251 to 1388.

15 (2) To address discharges of aquatic nuisance species from
16 oceangoing vessels that damage water quality, aquatic habitat, or
17 fish or wildlife, the department shall facilitate the formation of
18 a Great Lakes aquatic nuisance species coalition. The Great Lakes
19 aquatic nuisance species coalition ~~shall~~**must** be formed through an
20 agreement entered into with other states in the Great Lakes basin
21 to implement on a basin-wide basis water pollution laws that
22 prohibit the discharge of aquatic nuisance species into the Great
23 Lakes from oceangoing vessels. Upon entering into the agreement,
24 the department shall notify the Canadian Great Lakes provinces of
25 the terms of the agreement. The department shall seek funding from
26 the Great Lakes protection fund authorized under part 331 to
27 implement the Great Lakes aquatic nuisance species coalition.

28 (3) The department shall report to the governor and ~~to~~**the**
29 legislature at least annually on any plans or projects being

1 implemented or considered for implementation. The report ~~shall~~**must**
2 include requests for ~~any~~ legislation needed to implement any
3 proposed projects or agreements made necessary as a result of a
4 plan or project, together with any requests for appropriations. The
5 department may make recommendations to the governor on the
6 designation of areawide water quality planning regions and
7 organizations relative to the governor's responsibilities under the
8 federal water pollution control act, 33 USC 1251 to 1388.

9 (4) A person shall not alter a floodplain except as authorized
10 by a floodplain permit issued by the department ~~pursuant to~~**under**
11 part 13. An application for a floodplain permit must include
12 information required by the department to assess the proposed
13 alteration's impact on the floodplain. If an alteration includes
14 activities at multiple locations in a floodplain, 1 application may
15 be filed for combined activities.

16 (5) Except as otherwise provided in this section, until
17 October 1, ~~2024,~~**2025**, an application for a floodplain permit must
18 be accompanied by a fee of \$500.00. Until October 1, ~~2024,~~**2025**, if
19 the department determines that engineering computations are
20 required to assess the impact of a proposed floodplain alteration
21 on flood stage or discharge characteristics, the department shall
22 assess the applicant an additional \$1,500.00 to cover the
23 department's cost of review.

24 (6) After providing notice and an opportunity for a public
25 hearing, the department shall establish minor project categories of
26 activities within floodplains and floodplain projects that are
27 similar in nature, have minimal potential for causing harmful
28 interference when performed separately, and will have only minimal
29 cumulative adverse effects on the environment. All other provisions

1 of this part, except provisions applicable only to floodplain
2 general permits, are applicable to a minor project. A minor project
3 category ~~shall~~**must** not be valid for more than 5 years, but may be
4 re-established. Until October 1, ~~2024~~,**2025**, an application for a
5 floodplain permit for a minor project category must be accompanied
6 by a fee of \$100.00.

7 (7) The department, after notice and an opportunity for a
8 public hearing, shall issue general permits on a statewide basis or
9 within a local unit of government for floodplain projects that are
10 similar in nature, have minimal potential for causing harmful
11 interference when performed separately, and will have only minimal
12 cumulative adverse effects on the environment. A general permit
13 category ~~shall~~**must** not be valid for more than 5 years, but may be
14 re-established. Until October 1, ~~2024~~,**2025**, an application for a
15 floodplain permit for a general permit category must be accompanied
16 by a fee of \$50.00.

17 (8) By December 31, 2019, the department shall propose new
18 minor project and general project categories as authorized under
19 subsections (6) and (7).

20 (9) The department may issue, deny, or impose conditions on
21 project activities authorized under a floodplain permit for a minor
22 project category or a general permit category if the conditions are
23 designed to remove an impairment to a river and its floodplain, or
24 to mitigate the effects of the project. The department may also
25 establish a reasonable time when the proposed project is to be
26 completed or terminated.

27 (10) If the department determines that activity in a proposed
28 project, although within a floodplain minor project category or a
29 floodplain general permit category, is likely to cause more than

1 minimal adverse environmental effects, the department may require
2 that the application be processed according to subsection (5).

3 (11) If work has been done in violation of a permit
4 requirement under this part and restoration is not ordered by the
5 department, the department may accept an application for a permit
6 for that work if the application is accompanied by a fee equal to 2
7 times the permit fee otherwise required under this section.

8 (12) The department shall forward fees collected under this
9 section to the state treasurer for deposit in the land and water
10 management permit fee fund created in section 30113.

11 (13) A project that requires review and approval under this
12 part and 1 or more of the following is subject to only the single
13 highest permit fee required under this part or the following:

21 than a concentrated animal feed operation, that discharges liquid
22 wastes into any surface water or groundwater or underground or on
23 the ground other than through a public sanitary sewer shall have
24 waste treatment or control facilities under the specific
25 supervision and control of ~~persons~~ **individuals** who ~~have been~~ **are**
26 certified by the department as properly qualified to operate the
27 facilities. The department shall examine all supervisory personnel
28 having supervision and control of the facilities, other than a
29 concentrated animal feed operation, and certify that the ~~persons~~

1 **individuals** are properly qualified to operate or supervise the
2 facilities.

 21 needing more than 1 permit may submit a single payment for more
 22 than 1 permit and receive appropriate credit. Payment of the fee
 23 under this subdivision or verification of prepayment is a necessary
 24 part of a valid permit application or notice of coverage under a
 25 permit by rule.

26 (b) An annual fee of \$260.00 for a permit related solely to a
 27 stormwater discharge associated with industrial activity or from a
 28 commercial site for which the department determines a permit is

3 sewer system.

4 (d) For a permit for a municipal separate storm sewer system

17 than 50,001 people, \$4,000.00.

18 (vi) For a population of more than 50,000 people, but fewer
19 than 75,001 people, \$5,000.00.

20 (vii) For a population of more than 75,000 people, but fewer
21 than 100,001 people, \$6,000.00.

22 (viii) For a population of more than 100,000 people, \$7,000.00.

23 (e) An annual fee of \$3,000.00 for a permit for a municipal
24 separate storm sewer system issued to a county.

26 authorizing a state or federal agency to operate municipal separate
27 storm sewer systems in multiple locations statewide, an annual fee
28 determined pursuant to a memorandum of understanding between that
29 state or federal agency and the department and based on the

1 projected costs of the department to administer the permit.

2 (2) A stormwater discharge permit is not required for a
3 municipality that does not own or operate a separate storm sewer
4 system. The department shall not collect stormwater discharge fees
5 under this section from a municipality that does not own or operate
6 a separate storm sewer system.

7 (3) Permit fees required under this section are nonrefundable.

8 (4) A person possessing a permit not related solely to a site
9 of construction activity as of January 1 shall be assessed a fee.
10 The department shall notify those persons of their fee assessments
11 by February 1. Payment ~~shall~~**must** be postmarked no later than March
12 15. Failure by the department to send a person a fee assessment
13 notification by the deadline, or failure of a person to receive a
14 fee assessment notification, does not relieve that person of the
15 obligation to pay the fee. If the department does not meet the
16 February deadline for sending the fee assessment, the fee
17 assessment is due not later than 45 days after the permittee
18 receives a fee notification.

19 (5) If a stormwater permit is issued for a drainage district,
20 the drainage district is responsible for the applicable fee under
21 this section.

22 (6) The department shall assess interest on all fee payments
23 submitted under this section after the due date. The permittee
24 shall pay an additional amount equal to 0.75% of the payment due
25 for each month or portion of a month the payment remains past due.

26 (7) The department shall forward fees and interest payments
27 collected under this section to the state treasurer for deposit
28 into the fund.

29 (8) The department shall require the payment of the fee

1 assessed under this section as a condition of issuance or
2 reissuance of a permit not related solely to a site of construction
3 activity.

4 (9) In addition to any other penalty provided in this part, if
5 a person fails to pay the fee required under this section by its
6 due date, the person is in violation of this part and the
7 department may undertake enforcement actions as authorized under
8 this part.

9 (10) The attorney general may bring an action to collect
10 overdue fees and interest payments imposed under this section.

11 (11) If the permit is for a municipal separate storm sewer
12 system and the population served by that system is different than
13 that determined by the latest decennial census, the permittee may
14 appeal the annual fee determination and submit written verification
15 of actual population served by the municipal separate storm sewer
16 system.

17 (12) A person ~~who~~**that** wishes to appeal either a fee or a
18 penalty assessed under this section is limited to an administrative
19 appeal under section 631 of the revised judicature act of 1961,
20 1961 PA 236, MCL 600.631. The appeal ~~shall~~**must** be filed within 30
