reasonably be within the financial means of the residents of the general area.

(h) A description of the means through which persons displaced by the redevelopment shall have priority in occupying any new housing in the redevelopment area, if they meet reasonable requirements of responsibility.

2. No development shall be initiated until certificates of approval of the development plan therefor shall have been issued by both the planning commission and the supervising agency.

3. A planning commission may approve a development plan, but no certificate of approval thereof shall be issued by it unless and until an application for approval has been filed with it, together with the development plan, and unless and until the planning commission shall determine:

(a) That the area within which the development area is included is substandard or insanitary or is polluted or neglected and that the redevelopment of the development area in accordance with the development plan is necessary or advisable to effectuate the public purposes declared in section 2;

(b) That the development plan is in accord with the master plan, or city map, if any, of the city;

(c) That the development area is of sufficient size to allow its redevelopment in an efficient and economically satisfactory manner;

(d) That the various stages, if any, by which the development is proposed to be constructed or undertaken, as stated in the development plan, are practicable and in the public interest;

(e) That public facilities, including, but not limited to school, fire, police, transportation, park, playground and recreation, are presently adequate, or will be adequate, at the time that the development is ready for use, to service the development area;

(f) That the proposed changes, if any, in zoning ordinances or maps and in streets and street levels, or any proposed street closings, are necessary or desirable for the development and its protection against blighting influences and for the city as a whole;

(g) Upon data submitted by or on behalf of the redevelopment corporation, or upon data otherwise available to the planning commission, that there will be available for occupation by families, if any, then occupying dwelling accommodations in the development area similar accommodations at substantially similar rentals in the development area or elsewhere in a suitable location in the city, and that the carrying into effect of the development plan will not cause undue hardship to such families.

Any such determination shall be conclusive evidence of the facts so determined except upon proof of fraud or wilful misfeasance. In arriving at such determination, the planning commission shall consider only those elements of the development plan relevant to such determination under subparagraphs (a) through (g) of this paragraph 3 of section 4 and to the type of development which is physically desirable for the development area concerned from a city planning viewpoint, and from a neighborhood unit viewpoint if the development plan provides that the development area is to be primarily residential. Upon approval of a development plan by the planning commission, it shall forthwith issue a certificate of approval thereof.

A planning commission may state general standards of city and neighborhood unit planning to which a development plan should conform to be approved by it. Such standards, however, shall be as flexible as possible and only for the guidance of prospective proponents of development plans. Variations therefrom shall be freely allowed upon a showing of their advisability, to the end that individual initiative be encouraged.

4. A supervising agency may approve a development plan, but no certificate of approval thereof shall be issued by it unless and until the planning commission shall first have approved thereof and there has been filed with the supervising agency the development plan, the certificate of approval by the planning commission and an application for approval by the supervising agency, and unless and until the supervising agency shall determine:

(a) That the proposed method of financing the development is feasible and that it is probable that the redevelopment corporation will be able to finance or arrange to finance the development;

(b) That the persons who it is proposed will be active in or associated with the management of the redevelopment corporation during a period of at least 1 year from the date of the approval of the development plan have sufficient ability and experience to cause the development to be undertaken, consummated and managed in a satisfactory manner.

Any such determination shall be conclusive evidence of the facts so determined except upon proof of fraud or wilful misfeasance. In considering whether or not a certificate of approval of the development plan shall be issued, the supervising agency shall consider only those elements of the development plan relevant to such determination under subparagraphs (a) and (b) of this paragraph 4 of section 4. Upon approval of a development plan by the supervising agency, it shall forthwith issue a certificate of approval thereof.

5. The planning commission and the supervising agency may approve an amendment or amendments to a development plan, but no such amendment to a development plan which has theretofore been approved by the planning commission and the supervising agency shall be approved unless and until an application therefor has been filed with the planning commission or the supervising agency by the redevelopment corporation containing that part of the material required by paragraph 1 of this section 4 which shall be relevant to the proposed amendment, and unless and until the planning commission or the supervising agency, as the case may be, shall make the determinations required by paragraph 3 or 4 of this section 4 which shall be relevant to the proposed amendment.

6. The planning commission and the supervising agency may each adopt a schedule of fees to be paid upon the

filing of the development plan, amendments thereto and other instruments in connection therewith. The amount of these fees shall not exceed the reasonable cost of the examining, inspectional and supervisory services required under this act.
