

MICHIGAN TELECOMMUNICATIONS ACT (EXCERPT)
Act 179 of 1991

484.2305a Originating, forwarding, or terminating intrastate traffic; duties of provider; dispute resolution; violation; payment; fine; establishment of reciprocal compensation arrangement; payment of tarified rate; authority of commission to resolve disputes.

Sec. 305a.

(1) Except as otherwise provided by federal law, where technically feasible, a provider originating or forwarding an intrastate call that is terminated on the network of another provider shall do all of the following:

(a) For originated calls, transmit the telephone number of the party originating the call. The telephone number shall be transmitted without alteration in the network signaling information.

(b) For forwarded calls, transmit the telephone number of the party originating the call to the extent that information has been provided by the originating carrier. The telephone number shall be transmitted without alteration in the network signaling information.

(2) The commission shall investigate complaints alleging violations of this section and may initiate proceedings under section 203 to resolve disputes between providers regarding identification of traffic and disputes regarding compensation rights and obligations between providers who originate, forward, or terminate intrastate traffic.

(3) If the commission determines that the telephone number has not been transmitted as required by this section, the provider against whom the complaint was filed shall demonstrate that it was not technically feasible to transmit the information, or that it had a legitimate business or other good faith reason for not transmitting the telephone number.

(4) If the commission determines that a provider violated this section, the commission shall determine if the violation resulted in a nonpayment or underpayment of compensation to the complaining provider under the terms of the parties' compensation agreement or its intrastate access tariff. The commission shall determine the amount of the nonpayment or underpayment and order the violating provider to make payment. The commission shall assess a fine against the violating provider in an amount equal to 2 times the payment amount, and may take any other action authorized by Michigan law that it considers necessary.

(5) A provider that originates an intrastate call subject to section 251(b)(5) of the telecommunications act of 1996, 47 USC 251, shall agree to establish a reciprocal compensation arrangement for the termination of those calls. Originating and terminating providers shall agree to begin negotiations no more than 30 days after the originating provider receives a request from a terminating provider to establish an arrangement. During the negotiation period, reciprocal compensation rates shall be assessed by the terminating carrier under an interim arrangement with the originating carrier. Originating and terminating providers shall use good faith efforts to conclude negotiations and finalize an agreement within a reasonable time period.

(6) A provider that originates an intrastate intra-LATA call subject to a terminating carrier's intrastate access tariffs shall pay the tarified rate for termination of the call.

(7) The commission may resolve disputes under this section between originating and terminating providers related to negotiation of the reciprocal compensation agreement and the payment of the tarified rates.
