

THE MANAGEMENT AND BUDGET ACT (EXCERPT)
Act 431 of 1984

18.1344 Annual proposals; review of auditor general's audits; state debt; costs of capital outlay projects.

Sec. 344.

(1) The state budget director shall develop annual proposals for departmental program activities and the associated estimated costs and sources of financing. The proposals shall reflect current departmental program activities relative to impact on state policy goals, and new and augmented program activities in response to changing priorities. The proposals shall reflect the evaluations and analyses of state programs and activities prescribed in this act.

(2) The state budget director shall review the auditor general's audits of state agencies as a basis for making recommendations in departmental program expenditure proposals.

(3) The state budget director shall annually determine the amounts required for interest and principal of state debt and the estimated costs of capital outlay projects to provide facilities for state program services.
