- (5) In expending residential substance abuse treatment services funds appropriated by this act, the department shall ensure to the maximum extent possible that residential substance abuse treatment services are available statewide.
- (6) From the funds appropriated in section 105 for substance abuse administration and testing, the department shall expand residential substance abuse treatment services consistent with the terms of the grant received under the federal residential substance abuse treatment for state prisoners grant program administered by the office of justice programs, United States department of justice.

Sec. 222. (1) Not later than October 15, 1998, the department shall convene a meeting between the state interagency work group appointed by the governor, consisting of representatives of the office of drug control policy, the departments of state police, corrections, community health, and family independence agency, and an ad hoc group of key service provider groups including the Michigan association of community corrections advisory boards, the Michigan association for community corrections advancement, the Michigan council on crime and delinquency, the Michigan chapter of the national association on alcoholism and drug dependency, and the Michigan association of substance abuse coordinating agencies. The purpose of this meeting shall be for the state interagency work group to develop recommendations for program criteria, elements, and goals found to be successful in model program trials for substance abuse treatment of prisoners. The state interagency work group shall develop recommendations for a minimum of 3 separate pilot projects of differing modalities and durations for the pilot projects provided by sections 220 and 221.

- (2) Recommendations developed under subsection (1) shall include the following:

- (4) With the agreement of the interagency work group, the department shall employ the recommendations developed under this section in implementing the pilot programs required by sections 220 and 221.
- (5) Any funds appropriated under section 105 for the MDOC in-prison drug treatment program and the MDOC technical violator pilot drug treatment program that remain unexpended at the end of the fiscal year shall not revert to the general fund but instead shall be placed in separate work project accounts to be spent as provided under this section and sections 220 and 221.

Evaluation and comparison of substance abuse treatment modalities; contract with third parties; report.

- Sec. 223. (1) The purpose of the programs funded under sections 219(6), 220, and 221 is to evaluate and compare various substance abuse treatment modalities with regard to cost and impact on prison admission, length of stay, jail utilization, and offender relapse and recidivism. To this end, it is the intent of the legislature to provide for continued monitoring of offenders and evaluation of program efficacy.
- (2) The department shall contract with 1 or more independent third parties for evaluation of alcohol and substance abuse programs administered by the department, including in-prison programs and programs provided through community placement or field programs. The evaluation shall measure the impact of alcohol and other substance abuse programs on prison admission, length of stay, jail utilization, and offender relapse and recidivism. The evaluation of a program funded under section 219(6) shall be consistent with any requirements contained in the federal residential substance abuse and treatment grant for that program. Evaluation of programs funded under sections 220 and 221 shall be consistent with recommendations developed and agreed to under section 222, and shall be structured so as to allow programs funded in sections 220 and 221 to be compared with each other and with the program funded under section 219(6). Evaluation of programs funded under sections 220 and 221 shall to the extent feasible compare offenders treated under those programs with other offenders of similar characteristics.
- (3) The department shall develop agreements with 1 or more independent third parties for monitoring of implementation of programs funded under sections 220 and 221.
- (4) The department shall report by April 1, 1999 to the house and senate appropriations subcommittees on corrections and the house and senate fiscal agencies on the progress on implementation of the pilot programs provided by sections 219(6), 220, and 221 and on implementation of evaluation and monitoring requirements provided by this section.

Human relations and diversity/sensitivity programs; reports.

Sec. 224. (1) The department shall conduct, at a minimum, 3 human relations and diversity/sensitivity training sessions by December 31, 1998. The department shall also conduct follow-up training for employees who have received such training designed to provide continuity. The human relations and diversity/sensitivity programs should provide a framework for participants to examine ways in which ethnic, cultural, gender, and racial differences may affect how managers, supervisors, and staff work together as a team. The department shall develop a reliable survey instrument to objectively measure the effectiveness of human relations and diversity/sensitivity training.

Sec. 501. The department shall maintain sentencing recommendation guidelines for all probation personnel who are responsible for making sentencing recommendations for convicted felons. The purposes of the guidelines are to establish consistency in the recommendations by probation personnel to the judiciary for nonprison sanctions, provide for logical and fair nonprison sanction recommendations that are effective yet utilize the least restrictive and least expensive options while assuring public safety, and ensure proportionality among sentences and dispositional options. The state established guidelines shall allow for the use of all sanctions and services available to the offender population. For a sentence recommendation in a presentence investigation report under section 14 of chapter XI of the code of criminal procedure, 1927 PA 175, MCL 771.14, the guidelines shall require probation staff to recommend a sentence other than prison for

felons where the maximum sentencing guideline score is 18 months or less or recommend prison sentences only when required by law or when no alternative community sentence will provide public protection, pursuant to OP-BFS 71.01. Sentencing recommendation guidelines shall require probation staff to review all alternatives to prison and recommend nonprison sentences for all nonviolent offenders, excluding sentences for which there is a mandatory prison sentence. If the probation staff departs from these guidelines, reasons for the departure shall be attached to the recommended prison sentence and included with the presentence investigation report. The department shall ensure that data on adherence to these guidelines are collected as part of the department's overall information systems upgrade project and that it is compiled in an annual report submitted to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, and the state budget director by April 1, 1999.

- (3) Included in the appropriation in section 108 is adequate funding to implement the community tether program to be administered by the department. The community tether program is intended to provide sentencing judges and county sheriffs in coordination with local community corrections advisory boards access to the state's electronic tether program to reduce prison admissions and improve local jail utilization. The department shall determine the appropriate distribution of the tether units throughout the state based upon locally developed comprehensive corrections plans pursuant to the community corrections act, 1988 PA 511, MCL 791.401 to 791.414. It is the legislature's intent that the department avoid locating a new community corrections center in a residential neighborhood unless the location of the proposed community corrections center has the support of the local unit of government in whose jurisdiction the community corrections center is proposed to be located. If the local unit of government does not give its support for that location, the local unit of government within 60 days shall provide an alternative site for the proposed community corrections center within the local governmental unit's jurisdiction that is acceptable to the department.

- (a) An increase in local capacity to house felons who are considered prison bound based on historical local sentencing practices.
- (b) An increase in local bed space for felony and nonfelony offenders combined, providing this increase alleviates jail crowding and expands sentencing options for felons who otherwise would be prison bound based on past local sentencing practices.
- (c) An increase in local bed space capacity that allows a local unit of government to better utilize existing jail beds so that the most appropriate level of confinement is available for felony and nonfelony offenders, providing that the increase in local capacity improves local ability to appropriately house felons who otherwise would be prison bound based on past local sentencing practices or who are currently incarcerated in prison.

An application shall detail the data that will be reported to the department to establish the reduction in prison commitments of targeted felony offenders. Applications shall provide information on operating costs. The department shall evaluate project proposals for programmatic design and cost effectiveness.
